Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2016.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

ShopMy is an established curated social-commerce marketplace that connects shoppers, creators, and brands through creator storefronts, product recommendations, affiliate monetization, brand partnerships, and performance-based commerce tools.

Scam/Impersonation Risk

No contradictions were observed across the site's identity, content, historical, and external-reputation signals. The homepage presents a coherent marketplace model centered on curated recommendations, creator commerce, and brand collaboration, with no phishing, impersonation, deceptive financial, cryptocurrency, or other abuse indicators identified. The site's sustained historical presence and clean external reputation support the conclusion that it is an authentic operating platform.

- The homepage identifies a marketplace for shoppers, creators, and brands, including digital shops, affiliate links, brand partnerships, and recommendation features.
- The domain was registered in 2021 and is approximately 4.87 years old.
- The web archive contains 492 snapshots spanning 2016–2026, covering 11 years.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing finding.

Regulatory Verification Notes

ShopMy presents itself as a commercial marketplace rather than a licensed financial or investment service. No specific regulatory license or registration number is claimed in the supplied business-model evidence, so licensing is not applicable on the face of the described model but remains a transparency point for any jurisdiction-specific obligations. The identified corporate registrar and established operating footprint support identity continuity; third-party broker matching was absent and is not a regulatory determination.

- Domain registration identifies GoDaddy.com, LLC as registrar and Shop My Shelf Inc. as the organization.
- The site's transport encryption uses a DV certificate issued by Amazon RSA 2048 M04, valid through 2026-10-05.
- The homepage provides audience-specific commercial functionality and links to legal materials.
- The site holds a top-tier global traffic footprint, ranked 18,618 in the supplied traffic dataset.

What to Verify Next

For enterprise onboarding or material commercial activity, confirm the contracting entity, applicable consumer-commerce obligations, and any required affiliate or advertising disclosures through the relevant official registry and the site's legal materials. Contact and support channels should also be confirmed through an independently sourced official route before resolving account or payment disputes.

- The homepage separates offerings for shoppers, creators, and brands.
- The creator section describes affiliate attribution, revenue generation, and brand partnerships.
- The supplied page analysis found no sensitive forms, untrusted destinations, or phishing indicators.

Summary Verdict

ShopMy presents a legitimate, established, and trustworthy operating profile with strong convergence across site purpose, historical continuity, technical validity, and external reputation. Normal interaction, including account login and standard platform use, is appropriate.

Infrastructure Integrity

The site is served through Amazon infrastructure and CDN-associated delivery, providing a mainstream hosting and traffic-distribution layer that mitigates direct exposure of the service environment. This is a supporting control, not independent proof of legitimacy.

Closing Assessment

Standard account and marketplace activity is appropriate, subject to ordinary organizational controls for contracting, payments, and jurisdiction-specific compliance.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of shopmy.us.

- The request stayed on shopmy.us. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by awsdns-47.org, across 4 name servers. NOTED
- The registration is paid up to 2026-09-17. NOTED
- The earliest public archive of this site is from 2016-05-06. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about shopmy.us at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
