Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website is an established ecommerce and community-services platform for Army and Air Force military personnel, families, and authorized patrons, presenting retail categories, deals, marketplace services, account access, Military Star credit offerings, customer support, and charitable initiatives.

Scam/Impersonation Risk

No contradictions were observed across the site's identity, content, technical, and reputation signals. The homepage consistently presents a military-focused retail and services model, with no phishing, impersonation, malicious-reputation, or deceptive-behavior indicators. Normal account login and standard transactions are appropriate.

- The homepage identifies the Army & Air Force Exchange Service and provides retail, account, marketplace, and community-service functions.
- External reputation checks recorded no malicious or suspicious detections, no blacklist hit, and no abuse reports.
- The domain was registered on 2010-05-13 and is approximately 16.23 years old.
- The homepage's login and subscription forms showed no hidden forms, untrusted destinations, or wallet-related behavior.

Regulatory Verification Notes

The site presents a clear institutional identity and operates as a retail marketplace rather than making a specific regulated-investment or financial-license claim. Licensing or corporate-registration details were not clearly disclosed in the supplied page evidence; this is a limited transparency point for formal onboarding, not evidence of fraud. No adverse broker-reputation match was identified.

- The site's transport certificate identifies the subject organization as Army & Air Force Exchange Service.
- The domain registrar is GoDaddy.com, LLC, with expiration recorded as 2028-05-13.
- Hosted on AS16625 (Akamai Technologies, Inc.); registered network country: NL.
- TLS certificate issued by COMODO ECC Organization Validation Secure Server CA (OV), valid to 2026-10-10.

What to Verify Next

For institutional engagement, confirm any applicable registration or licensing requirements through the relevant official registry and validate organizational details through the site’s published policy and customer-service channels. Standard account use and ordinary purchases may proceed through the website’s normal workflows.

- The homepage provides customer-support, account-recovery, and authorized-patron service pathways.
- The site presents multiple established operating functions, including retail sales, gift cards, marketplace services, and affiliated credit offerings.
- The page structure includes policy- and service-oriented content consistent with an operational ecommerce platform.

Summary Verdict

The website has a high-trust posture supported by convergent evidence of established identity, sustained operation, clean reputation, coherent business purpose, and valid organizationally validated encryption. No scam, impersonation, phishing, or identity-conflict indicators were identified.

Infrastructure Integrity

The site is protected by Akamai CDN/WAF infrastructure, with observed addresses belonging to CDN edge servers and no origin-server address exposed in the analysis. This reduces direct origin exposure and provides a meaningful protective control, while remaining a mitigating infrastructure signal rather than independent proof of legitimacy.

Closing Assessment

Normal interaction—including account login, account actions, and standard transactions—is appropriate within the site’s stated retail and community-services purpose.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of shopmyexchange.com.

- The request stayed on shopmyexchange.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR

- DNS for this domain is served by akam.net, across 6 name servers. NOTED
- The registration is paid up to 2028-05-13. CLEAR
- It is hosted on AKAMAI-AS, from a server in NL. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about shopmyexchange.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
