

Is shoprunner.com legit? TrustSniffer's high-trust assessment: 100/100

shoprunner.com

Verdict

100

OUT OF 100

HIGH TRUST

shoprunner.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-01 by automated analysis. Classification confidence 55%.

What this site appears to be

Official-looking ShopRunner notice stating that FedEx discontinued the service and shut down the website and mobile app on January 31, 2026.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

This website is the official ShopRunner service-cessation page, presenting a FedEx-attributed notice that the shopping and delivery service and its mobile application ended on January 31, 2026; its apparent purpose is to inform former users and direct them to support and related legal resources.

Scam/Impersonation Risk

No contradictions were observed. The page's FedEx attribution, cessation notice, legal references, and absence of active payment, login, or sensitive-data collection are consistent with a genuine corporate service notice. External reputation checks recorded no malicious or suspicious detections, and no brand-impersonation indicators were identified.

- Homepage identifies ShopRunner as discontinued by FedEx and gives the effective cessation date.
- Homepage contains no login form, sensitive form, wallet interaction, or active monetization flow.
- The domain was registered on 2001-07-11 and is approximately 25.07 years old.
- External reputation checks recorded 0 malicious and 0 suspicious detections.

Regulatory Verification Notes

The page provides clear corporate attribution to ShopRunner and FedEx, copyright information, customer-support direction, Terms of Use, and Privacy & Security links. It presents no active regulated financial proposition or licensing claim; this is consistent with a service-cessation notice rather than evidence of regulatory misconduct. The established domain history, mainstream hosting, valid transport encryption, and clean external reputation support the site's identity and legitimacy.

- Homepage title states "ShopRunner | Notice of Service Cessation."
- Homepage links to Terms of Service, Terms of Use, and Privacy & Security.
- Hosted on AS8075, Microsoft Corporation, US.
- TLS certificate issued by GeoTrust TLS RSA CA G1, DV validation, valid to 2027-01-18.

What to Verify Next

For any residual account, support, or historical-service matter, confirm the relevant status through an independently sourced FedEx corporate channel and retain the applicable terms and privacy notices for records.

- Homepage directs remaining questions to customer support.
- Homepage lists related FedEx service and API terms.
- No active transaction or account-action workflow is presented.

Summary Verdict

ShopRunner presents as a legitimate, established corporate service notice with a high-trust posture and no observed scam, phishing, or impersonation indicators. Normal interaction, including account login and standard use where such functions are offered, is appropriate.

Infrastructure Integrity

Confirmed hosting is provided through Microsoft infrastructure on AS8075. No trusted CDN or WAF layer was identified in the supplied infrastructure evidence; this is a neutral infrastructure observation and does not contradict the site's otherwise strong trust posture.

Closing Assessment

Standard interaction is appropriate, while any residual service matter should be handled through independently confirmed FedEx support channels.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of shoprunner.com.

- The request stayed on shoprunner.com. It was not redirected to another domain. CLEAR
- Registration is published under CSC Corporate Domains, Inc.. CLEAR
- DNS for this domain is served by fedex.com, across 6 name servers. NOTED
- The registration is paid up to 2027-07-11. NOTED
- It is hosted on MICROSOFT-CORP-MSN-AS-BLOCK, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about shoprunner.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
