Full analysis

Overview

SidelineSwap is an established online marketplace for buying and selling new, used, and clearance sports equipment, presenting category-based shopping, seller tools, buyer protection, trade-in services, shipping support, and account functionality for sports consumers.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent ecommerce model covering hockey, baseball, golf, lacrosse, football, skiing, and other sporting categories, with marketplace transactions, buyer protection, seller services, and returns rather than implausible financial or investment claims. The site's historical continuity, established traffic footprint, clean external reputation, and absence of phishing, impersonation, malicious, or blacklist indicators materially support its legitimacy.

- The homepage identifies SidelineSwap as a marketplace for used, new, and clearance sports equipment, with buyer-protection and seller-service functionality.
- The domain has 1,235 archive snapshots spanning 2011–2026, with 16 years tracked.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, and no blacklist finding.

Regulatory Verification Notes

SidelineSwap presents a commercial marketplace rather than a regulated financial service. The available content does not establish a financial license or regulatory registration, so any applicable consumer, marketplace, payment, or seller obligations should be confirmed through the site's legal and terms pages; this is a transparency and verification matter, not evidence of deception. Domain registration through GoDaddy.com, LLC and valid transport encryption further support an established operating presence, while registration privacy is an administrative detail.

- The domain was registered on 2010-08-13 and is approximately 15.98 years old; registrar: GoDaddy.com, LLC.
- The site is served from AS54113 (FASTLY - Fastly, Inc., US).
- TLS is issued by YR2 at DV validation level and is valid through 2026-09-12.

What to Verify Next

Before a material transaction, confirm the current buyer-protection, returns, seller-payout, shipping, and dispute procedures in the applicable terms and support pages. For organizational use, independently confirm the

contracting entity and any consumer or marketplace registrations relevant to the transaction jurisdiction.

- The homepage provides direct navigation for selling, signing in, joining, shopping categories, and cart activity.
- The site links to established social channels on Instagram and YouTube.
- No adverse broker-association match was identified.

Summary Verdict

The overall posture is high-trust, established, and consistent with legitimate ecommerce operations. Normal interaction, including account login and standard marketplace use, is appropriate.

Infrastructure Integrity

Fastly CDN infrastructure provides a mainstream delivery layer and acts as a mitigating security control by reducing direct exposure of the application environment; infrastructure protection is supportive but is not, by itself, proof of legitimacy.

- Hosting organization: FASTLY - Fastly, Inc., US.
- Abuse reporting context identifies the infrastructure as a content delivery network with whitelist status and zero confidence of abuse.

Closing Assessment

Normal account use and standard transactions are appropriate, with ordinary attention to the platform’s documented transaction and dispute procedures.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about sidelineswap.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
