

Is snsbank.nl legit? TrustSniffer's high-trust assessment: 100/100

snsbank.nl

Verdict

100

OUT OF 100

HIGH TRUST

snsbank.nl appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-02 by automated analysis. Classification confidence 55%.

What this site appears to be

Dutch banking homepage announcing that SNS is now ASN Bank, with navigation to retail banking products, customer service, login, and cookie preferences.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

SNS Bank's website is a Dutch retail-banking portal announcing the transition to ASN Bank and presenting payment accounts, savings, investments, insurance, mortgages, pensions, loans, customer service, and secure internet banking access.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or confirmed blacklist findings were observed. The homepage's SNS-to-ASN Bank transition, coherent banking navigation, and established domain history align with a genuine institutional banking presence. External reputation checks were clean, and the site's traffic footprint is established.

EVIDENCE

- The homepage explicitly announces that SNS is now ASN Bank and provides consistent banking-service navigation.
- The site's behavioral inspection found no hidden forms, external sensitive-form submissions, cloaking, wallet activity, or suspicious scripts.
- The domain was registered on 1995-11-28 and is approximately 30.7 years old.

Regulatory Verification Notes

The website presents a conventional retail-bank business model and does not display deceptive financial promotions or unsupported investment claims. The available page does not state a specific licensing authority or registration number, so regulatory status should be confirmed through the relevant official register; this is a transparency item, not evidence of impersonation. No matching third-party broker-reputation record was identified.

EVIDENCE

- The homepage describes payment, savings, investment, insurance, mortgage, pension, and lending services.
- The page contains no identified red-flag content and no sensitive submission form.
- The site is served from AS20940 (Akamai International B.V., NL).
- Its TLS certificate is EV-validated, issued by DigiCert EV RSA CA G2 for ASN Bank N.V., valid through 2027-02-10.

What to Verify Next

Confirm the institution’s current authorization and the SNS-to-ASN transition through the applicable financial-services register and official customer-service channels before relying on regulatory details for a specific product.

EVIDENCE

- The homepage provides customer-service, contact, office-locator, and login pathways.
- Product navigation covers the banking services described on the homepage.
- The displayed transition messaging provides a concrete basis for confirming current institutional branding.

Summary Verdict

The website presents as a legitimate, established, high-trust banking service with consistent identity, stable behavior, clean external reputation, and no observed contradiction. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is protected by Akamai CDN/WAF infrastructure, with observed traffic terminating at edge address 23.3.89.123 on AS20940; the protective layer mitigates direct exposure of the origin infrastructure.

Closing Assessment

Prospective users may proceed with normal account access and standard banking actions, applying ordinary care when confirming transaction and communication details.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of snsbank.nl.

- The request stayed on snsbank.nl. It was not redirected to another domain. CLEAR
- Registration is published under Registrar.eu. CLEAR

- DNS for this domain is served by creation, across 8 name servers. NOTED
- It is hosted on AKAMAI-ASN1, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about snsbank.nl at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
