

Is soccer6.co.za safe? TrustSniffer's moderate-trust assessment: 60/100

soccer6.co.za

Verdict

60

OUT OF 100

MODERATE TRUST

soccer6.co.za is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Safe for Read-Only

Dynamic Interaction Caution

Assessed 2026-08-13 by automated analysis. Classification confidence 75%.

What this site appears to be

A sports betting site listing numerous soccer pools, match fixtures, pool codes, current pools and carryovers, with calls-to-action to bet and open accounts. Contains responsible gambling notice and contact/about links.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Safe for Read-Only.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2005.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Soccer6.co.za is an online sports-betting website presenting soccer fixtures, betting pools, account-opening calls to action, results, form guides, and responsible-gambling information, with the apparent business model of accepting wagers into pooled prize structures.

Scam/Impersonation Risk

No contradictions were observed: the available evidence contains no confirmed phishing, impersonation, or blacklist finding. The homepage describes the service as “TAB’s official soccer betting site” and advertises “R50 million paid out every month”; these are on-site claims and do not independently establish the operator’s identity. The site’s specific offerings include Soccer 1, Soccer 4, Soccer 6, Soccer 10, Soccer 13, Soccer Any 13 Xtra, Soccer Mega 10 Jackpot, Soccer Corners, and related pools. Because participation requires deposits and the model involves custodial handling of funds, pooled payouts, carryovers, and an opaque value flow, financial exposure is materially different from ordinary content browsing. Observed browsing also generated substantial external network activity and console errors, but no hidden forms, password-exfiltration forms, wallet-drainer behavior, cloaking, or brand-impersonation indicators were recorded. A clean external reputation and an established global traffic footprint support an apparently operational website, while the real-world operator remains independently unverified. Evidence:

- The homepage presents soccer pools, fixtures, account-opening and betting calls to action, alongside the “TAB’s official soccer betting site” statement and the “R50 million paid out every month” claim.
- Historical web records contain 489 snapshots from 2005-03-11 through 2026-01-04, spanning 22 years, with no suspicious repurposing or semantic-drift finding.
- External reputation checks recorded 0 malicious results, 0 suspicious results, and 0 abuse reports; the site’s traffic rank was 22855 and it was within the top 1 million.

Regulatory Verification Notes

The About Us, Contact Us, Rules, and responsible-gambling content provide a basic service-facing structure, but the supplied pages do not disclose a gambling licence authority or licence number. This is a regulatory-transparency gap requiring verification, not evidence of a scam. The domain is long-established and associated in registration data with 4Racing (Pty) Ltd through DIAMATRIX C.C.; however, the available evidence does not independently verify that entity as the current operator of the betting service. The apparent legitimacy of the website is therefore evidence-consistent rather than proven, and no third-party broker or regulatory match was identified. Evidence:

- Domain registration telemetry records creation on 2003-02-11, an age of 23.52 years, and registrar DIAMATRIX C.C.; the recorded registrant organization is 4Racing (Pty) Ltd.
- The homepage and linked About Us, Contact Us, and Rules pages provide service and contact information but no stated licence authority or licence number.
- The site's transport encryption uses a certificate issued by WE1 with DV validation, valid to 2026-10-25T07:10:43+00:00.

What to Verify Next

Before deposits or other sensitive financial actions, the operator's licence should be confirmed directly with the gambling regulator applicable to the service's target market, using the operator name and any licence details obtained independently. Payment ownership, withdrawal timelines, pool settlement methodology, dispute handling, account closure, and responsible-gambling controls should be checked against the Rules and account terms. Official contact channels should also be confirmed through an independent route before any payment or identity documentation is submitted. Evidence:

- The Rules and responsible-gambling content are the relevant pages for checking settlement, payout, dispute, and player-protection terms.
- The Contact Us and About Us pages are the available site-based channels for confirming the operating entity and payment-support process.
- The homepage's account-opening and deposit-based participation flow makes payment and withdrawal verification material before financial use.

Summary Verdict

The site presents a **moderate-trust posture**: it appears established and operational, with no observed scam or impersonation contradiction, but its operator identity and regulatory standing are not independently verified. Ordinary informational browsing is supported by the evidence; financial interaction warrants a more limited, verification-led approach.

Infrastructure Integrity

The website is protected by Cloudflare's CDN/WAF infrastructure, and all observed addresses were CDN edge servers rather than exposed origin infrastructure. This reduces direct origin exposure and provides a meaningful defensive layer, but it is a mitigating technical control only and does not establish the legitimacy of the operator. Evidence:

- Hosting telemetry identifies AS13335, CLOUDFLARENET - Cloudflare, Inc., US.
- The observed edge addresses were 104.18.6.175, 104.18.7.175, 104.21.71.70, and 172.67.143.225; likely origin IP count was 0.
- TLS telemetry records WE1 as the issuer, DV as the validation level, and certificate expiry at 2026-10-25T07:10:43+00:00.

Closing Assessment

The proportionate course is to use the site for information and routine browsing while completing independent operator, licensing, payment, and withdrawal checks before committing significant funds or submitting sensitive information.

Written analysis generated 2026-08-13 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by behaviour in a sandbox.

01 Dynamic Interaction Caution

- Most of what the page loaded came from other domains rather than from this one.
Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH
- The page exchanged network traffic with destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_TRAFFIC
- The page made background requests to destinations TrustSniffer does not recognise.
Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_XHR
- The page sent data to a destination TrustSniffer does not recognise.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about soccer6.co.za at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
