

Is sportsbikeshop.co.uk legit? TrustSniffer's high-trust assessment: 80/100

sportsbikeshop.co.uk

Verdict

80

OUT OF 100

HIGH TRUST

sportsbikeshop.co.uk appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-10 by automated analysis. Classification confidence 75%.

What this site appears to be

Established online motorcycle retail site offering helmets, clothing, boots, accessories, reviews, and store pickup. Clear shopping flows, shipping and returns information, company registration and regulatory references present.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2003.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is an established-looking online motorcycle retail storefront presenting helmets, clothing, jackets, gloves, boots, parts, accessories, product reviews, delivery options, returns, store pickup, and account services. Its apparent business model is conventional e-commerce based on direct product sales, checkout or finance partners, and customer-support services.

Scam/Impersonation Risk

No contradictions were observed: there were no phishing, impersonation, blacklist, or malicious-reputation indicators. The homepage presents a coherent retail proposition, including motorcycle equipment from more than 250 brands, more than 200,000 customer reviews, next-day delivery, free returns, and a stated 365-day period for trying and returning helmets. These are commercially significant claims that should be treated as retailer representations rather than independently validated facts, but they are consistent with the site's detailed product catalogue and shopping flows. Behavioral inspection did identify one hidden form, substantial page changes after interaction, and two non-whitelisted outbound posts; in this context, those signals were not accompanied by password exfiltration, wallet activity, cloaking, suspicious scripts, or other abuse patterns, and therefore do not establish malicious intent.

EVIDENCE

- The homepage and product catalogue present helmets, clothing, gloves, boots, luggage, electronics, parts, reviews, shipping, returns, and store-pickup services.
- The domain was registered in 2002 and is approximately 24.54 years old through 2034-01-31T20:21:10Z, with registration through 123-Reg Limited t/a 123-reg.
- Historical records contain 1,975 snapshots spanning 2003-09-21 to 2026-06-27, covering 24 years with a maximum recorded gap of 1 year.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, no malicious safe-browsing result, and 0 abuse reports; the site was listed within the global top 1 million by traffic rank at 42111.

Regulatory Verification Notes

The site presents company-registration and regulatory references on its legal and corporate pages, but the real-world operator remains likely rather than independently verified. No specific financial licence is claimed in the available material; given the conventional retail model, this is principally a disclosure and applicability point

rather than evidence of a scam. Any finance or checkout arrangement should be assessed against the relevant merchant and payment-provider disclosures. A valid domain-validated TLS certificate and established registration infrastructure support transport integrity, but neither independently proves the operator's legal identity.

EVIDENCE

- The site's legal and corporate pages contain company-registration and regulatory references, while the available identity evidence remains classified as likely rather than verified.
- The site is served on AS13335 through CLOUDFLARENET - Cloudflare, Inc., US.
- The transport certificate is issued by WE1, uses DV validation, and is valid to 2026-11-06T22:09:52+00:00.
- The domain registration record identifies 123-Reg Limited t/a 123-reg as registrar.

What to Verify Next

Before credential or payment interactions, an independent check should match the merchant identity shown on the legal pages with the applicable corporate registry and confirm that the stated returns, delivery, and payment-protection arrangements apply to the intended order. Where financing or other checkout partners are offered, their terms and regulatory status should be reviewed separately. Official support channels should also be confirmed through an independent route, such as a verified social profile or a telephone number obtained from a trusted business source.

EVIDENCE

- The legal pages provide the starting point for an independent merchant-identity and registration check.
- The delivery, returns, account, and checkout flows identify the commercial terms that should be compared with the final order documentation.
- The site's linked social presence includes Facebook, X, YouTube, and Instagram, providing potential independent routes for confirming official contact channels.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website with a high-trust, low-risk posture. The coherent retail content, long-running provenance, clean external reputation, and stable technical controls materially support that assessment, while operator identity remains not independently proven.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, and all observed addresses were CDN edge addresses rather than exposed origin addresses. This reduces direct origin exposure and is a mitigating security measure, but it is infrastructure protection rather than proof of ownership or legitimacy.

EVIDENCE

- Observed Cloudflare edge addresses were 104.18.30.101, 104.18.31.101, 2606:4700::6812:1e65, and 2606:4700::6812:1f65; no origin candidate was identified.

Closing Assessment

Ordinary browsing is proportionate to the assessed posture; before submitting credentials or payment details, the prospective customer should complete the independent merchant-identity, return-policy, and payment-protection checks described above.

Written analysis generated 2026-08-10 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of sportsbikeshop.co.uk.

- The request stayed on sportsbikeshop.co.uk. It was not redirected to another domain. CLEAR
- Registration is published under 123-Reg Limited t/a 123-reg. CLEAR
- DNS for this domain is served by com., across 2 name servers. NOTED
- The registration is paid up to 2034-01-31. CLEAR
- The earliest public archive of this site is from 2003-09-21. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about sportsbikeshop.co.uk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
