Full analysis

Overview

SportyTrader is an established French sports-betting information and affiliate portal that presents expert predictions, live odds, bookmaker rankings, promotional codes, news, and betting tools, generating revenue through advertising and referrals to third-party betting operators while displaying adult-gambling and responsible-play notices.

Scam/Impersonation Risk

No identity contradictions, phishing indicators, brand impersonation, malicious reputation findings, or deceptive guaranteed-return claims were observed. The long-established domain, prominent global traffic footprint, clean security reputation, stable page delivery, and absence of credential-harvesting mechanisms provide mutually reinforcing evidence that this is the legitimate SportyTrader service rather than a fraudulent imitation.

- Domain-registration records show that the site was registered in 2005 and is approximately 21.44 years old; the registrar is OVH, SAS.
- The homepage contains substantial, coherent editorial content under the SportyTrader identity and produced no brand-impersonation indicators.
- The observed homepage contained 0 forms, no login form, no hidden forms, and no sensitive-data submission mechanism.
- External reputation telemetry recorded 0 malicious and 0 suspicious detections, no malicious safe-browsing finding, no abuse reports, and a global traffic rank of 7,505.

Regulatory Verification Notes

The service presents itself as an editorial and comparison publisher rather than as the operator accepting wagers. No licensing authority or licence number was identified in the supplied page content; given the affiliate model, this is principally a disclosure question rather than evidence of fraud. Visitors are ultimately referred to separately operated bookmakers, so regulatory eligibility, consumer protections, and promotional conditions depend on the selected operator and jurisdiction. The site's advertising disclosures and responsible-gambling notices support a comparatively mature presentation, while the lack of a broker-intelligence match carries no independent legal conclusion.

- The homepage describes predictions, odds comparisons, bookmaker reviews, bonuses, and betting guides, with referrals to named third-party operators.
- The homepage displays advertising and gambling-risk notices directed at adult users.

- No on-page licence claim, licensing authority, or licence number was identified in the assessed content.
- The site’s transport encryption uses a DV certificate issued by YE2, valid until 2026-09-15; service telemetry identifies AS13335 (CLOUDFLARENET — Cloudflare, Inc., US).

What to Verify Next

For any resulting financial engagement, the selected bookmaker’s licence should be confirmed directly in the relevant regulator’s registry, and its legal entity, geographic eligibility, withdrawal rules, bonus conditions, and dispute process should be reviewed before registration or funding. Official contact channels should be confirmed independently where material assistance is required.

- The homepage routes visitors toward third-party registrations, meaning the counterparty for wagering is distinct from the publisher.
- Promotional material includes operator-specific bonus codes and offers whose binding terms are controlled by the destination operator.
- The site provides bookmaker rankings and comparisons, making independent confirmation of each operator’s current regulatory status appropriate.

Summary Verdict

The website is legitimate, established, and trustworthy, with convergent identity, reputation, longevity, traffic, content-quality, and technical-security signals and no observed contradictions. Normal interaction, including account login where offered and standard use, is appropriate.

Infrastructure Integrity

The website is protected by Cloudflare’s CDN/WAF. All four observed IPv4 and IPv6 addresses were Cloudflare edge endpoints, with no origin-server candidate exposed during the assessment; this reduces direct infrastructure exposure but is a protective control rather than independent proof of legitimacy.

Closing Assessment

Prospective users may engage with the site normally while applying ordinary consumer due diligence before entering any consequential arrangement with an external service.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about sportytrader.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
