Full analysis

Overview

SPOTV NEWS is an established Korean sports and entertainment news portal presenting current reporting, category-based navigation, editorial polls, social-media links, and publisher information for an advertising- and audience-supported media business.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents coherent sports, entertainment, and editorial content, with no phishing, brand-impersonation, financial-manipulation, cryptocurrency, or malicious-form indicators. External reputation checks were clean, and the site's long, continuous historical presence is consistent with an established publication rather than a recently created impersonation.

EVIDENCE

- Homepage: Korean sports and entertainment articles, category navigation, bylines, and editorial polling are present.
- Domain registration: Registered 2014 (~12.09 years old).
- Web archive: 1,484 snapshots spanning 2014–2026 (13 years tracked).
- External reputation: 0 malicious detections, 0 suspicious detections, and 0 abuse reports.

Regulatory Verification Notes

The site identifies itself as SPOTV NEWS and presents publisher contact and registration information, while technical registration records identify News Player Co., Ltd. through Whois Corp. No regulated financial-service offering or licensing claim is identified; this is a limited disclosure consideration for institutional reliance, not evidence of deception. No matching third-party broker warning was identified.

EVIDENCE

- Registration record: Registrar listed as Whois Corp.; registrant listed as News Player Co., Ltd.; expiry is 2027-07-03.
- Hosting record: Served from AS135354 (NBPAP-AS-AP — NAVER BUSINESS PLATFORM ASIA PACIFIC PTE. LTD., SG).
- TLS certificate: Issued by GlobalSign GCC R6 AlphaSSL CA 2025, DV validation, valid to 2026-12-15.

What to Verify Next

For material commercial or editorial reliance, confirm the publisher details through an independently sourced corporate or media-industry record and ensure that any jurisdiction-specific contractual or licensing

requirements relevant to the intended engagement are satisfied. Routine browsing and account use do not require exceptional handling.

EVIDENCE

- Homepage: Identifies the SPOTV NEWS publication and displays current editorial categories and reporting.
- Publisher-information area: Provides contact and registration details for independent reconciliation.
- Social links: Connect the publication to Naver, Facebook, and YouTube channels.

Summary Verdict

The website presents a legitimate, established, and trustworthy posture with strong convergence across identity, content, historical continuity, transport security, and external reputation. No evidence indicates phishing, impersonation, or malicious activity.

Infrastructure Integrity

The confirmed hosting environment provides identifiable server infrastructure, while the supplied evidence does not establish a separate CDN, WAF, or concealed-origin posture. This infrastructure evidence is consistent with a normally operated media website.

EVIDENCE

- Server location: Confirmed server country is KR.
- Transport security: TLS is valid with 134 days remaining at collection time.

Closing Assessment

Normal browsing, account login, and standard site use are appropriate; routine organizational due diligence remains suitable for material business reliance.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about spotvnews.co.kr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
