- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2007.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

SPX Express Brasil is a Shopee-associated logistics platform presenting delivery-driver and agency partnerships, parcel pickup and returns, shipment support, FAQs, and customer assistance for logistics operations in Brazil.

Scam/Impersonation Risk

No contradictions, phishing indicators, blacklist findings, or malicious reputation findings were observed. The homepage presents a coherent logistics model involving delivery and transfer drivers, Shopee agencies, parcel handling, returns, and service-related earnings rather than investment deposits; it also contains no login form, sensitive-data form, wallet interaction, or apparent harvesting mechanism. The Shopee association is consistent across the site content, with no conflicting legal identities or impersonation evidence.

- The homepage identifies SPX Express as Shopee's integrated logistics operation in Brazil and describes drivers, agencies, hubs, and distribution centers.
- Driver and agency FAQ pages support the stated logistics-partnership model.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing finding.
- The domain was registered on 2007-08-03 and is approximately 19.01 years old; its archive contains 39 snapshots spanning 2007–2025 across 19 tracked years.

Regulatory Verification Notes

The available content is commercial and operational rather than an investment or financial-services offering. The site does not present a licensing claim or registration number in the supplied pages, so regulatory authorization is not material to the described logistics activity but remains a transparency point if a regulated service is later asserted. The recorded registrant is SHPS TECNOLOGIA E SERVICOS LTDA, while the site identifies the operating brand as SPX Express and Shopee logistics; this does not constitute an identity contradiction.

- WHOIS records identify SHPS TECNOLOGIA E SERVICOS LTDA as the registrant, with expiration on 2027-08-03.
- Hosting resolves to AS138341, SHOPEE-AS – SHOPEE SINGAPORE PRIVATE LIMITED, Singapore.
- The site's TLS certificate is Domain Validated, issued by YR2, and valid until 2026-10-11.
- The site's pages provide operational FAQs, support information, and partnership descriptions but no license number.

What to Verify Next

Before formal commercial onboarding, the organization should confirm the contractual entity, partnership authority, and applicable Brazilian logistics obligations through Shopee or SPX corporate channels obtained

independently from the website. Any future offering involving regulated financial activity should also be checked against the relevant official registry.

- The homepage provides driver and agency onboarding pathways.
- The support section includes FAQs for both drivers and agencies.
- The site offers customer assistance through WhatsApp.

Summary Verdict

The website presents as a legitimate, established, and trustworthy logistics platform with a coherent operating purpose, consistent identity signals, clean external reputation, and no observed scam or impersonation contradictions. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site resolves to a single apparent origin address hosted by SHOPEE-AS in Singapore rather than a separately identified CDN edge network. This infrastructure provides a clear hosting attribution, while the valid TLS certificate supplies transport protection; these are mitigating technical signals, not independent proof of legitimacy.

- The resolved address is 147.136.190.129 in Singapore, with one unique IP and no detected CDN edge IP.
- Hosting infrastructure is attributed to AS138341, SHOPEE-AS – SHOPEE SINGAPORE PRIVATE LIMITED.
- TLS uses issuer YR2 with Domain Validation and an expiry of 2026-10-11.

Closing Assessment

Prospective users may proceed with normal account and service interactions, subject to ordinary commercial confirmation of onboarding terms and the applicable business relationship.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of spx.com.br.

- The request stayed on spx.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by awsdns-15.org, across 4 name servers. NOTED

- The registration is paid up to 2027-08-03. NOTED
- The earliest public archive of this site is from 2007-12-15. CLEAR
- It is hosted on SHOPEE-AS, from a server in SG. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about spx.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
