Key findings

- Automated classification: Not Scam.
- Public web-archive history exists since 2008.
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

STAFF EXPRESS is a Japanese B2B staffing-management platform operated by SI System. It presents integrated tools for recruitment, contracts, attendance, payroll, billing, analytics, support, and compliance, using subscription and perpetual-license pricing for staffing agencies and client companies.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent staffing-software business with normal product navigation and login functionality, while the available reputation checks found no malicious or suspicious detections, phishing indicators, or brand-impersonation signals. Long-term historical continuity further supports an established identity rather than a recently created or repurposed operation.

- Homepage: 262 archive snapshots spanning 2008–2026, covering 19 tracked years.
- Domain history: Registered in 2008; authoritative domain age is 18.351813826146476 years.
- External reputation: Zero malicious and zero suspicious detections across the evaluated checks; no impersonation signal was identified.

Regulatory Verification Notes

The site's corporate and contact material identifies SI System and presents physical office information, while the homepage clearly describes a conventional B2B software model with published service scope, support, and pricing. No financial-investment or brokerage offering is presented. The available material does not state a regulatory licence or registration number; this is a limited disclosure point for procurement and compliance review, not evidence of deceptive conduct.

- Hosting infrastructure: Served from AS131965, XSERVER - Xserver Inc., Japan.
- Transport security: GeoTrust TLS RSA CA G1 certificate, DV validation, valid through 2026-11-15T23:59:59+00:00.
- Homepage: Published monthly pricing begins at ¥25,000 and the service scope covers staffing, recruitment, contracts, attendance, payroll, billing, and analytics.

What to Verify Next

For formal procurement, independently confirm SI System's corporate identity and office details through an appropriate Japanese corporate registry or established offline channel. Determine whether the intended deployment requires any sector-specific registration, contractual controls, or data-processing documentation. Confirm the official support and contact channels before exchanging sensitive business information.

- Corporate/contact material: Provides the identity and physical-office basis for independent procurement verification.
- Homepage: Provides the stated service scope and pricing basis for contract review.

Summary Verdict

The website presents as a legitimate, established, and trustworthy enterprise software provider with a coherent identity, stable operating history, clean reputation, and no observed scam or impersonation contradictions. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site resolves directly to a single likely origin address without a detected CDN or WAF layer. Hosting is provided by XSERVER - Xserver Inc. in Japan on AS131965; this is a conventional hosting posture and does not itself establish legitimacy, but no associated infrastructure concern was identified.

Closing Assessment

Standard business engagement is appropriate, subject to the organisation's normal procurement, contractual, and compliance controls.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of staffexpress.jp.

- The request stayed on staffexpress.jp. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2008-03-25. CLEAR
- It is hosted on XSERVER, from a server in JP. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about staffexpress.jp at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
