

Is startv.com.tr legit? TrustSniffer's high-trust assessment: 90/100

startv.com.tr

Verdict

90

OUT OF 100

HIGH TRUST

startv.com.tr appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-13 by automated analysis. Classification confidence 55%.

What this site appears to be

Official Turkish TV network site presenting program listings, episode summaries, trailers, news items, and live viewing links. Cookie/consent mechanisms present for advertising and personalization.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

This website presents itself as Star TV's official Turkish television network portal, providing programme schedules, episode summaries, trailers, entertainment news, photo and video content, and links for live viewing. Its apparent business model is an ad-supported media service monetized through advertising, sponsorships, and related partner promotions.

Scam/Impersonation Risk

No contradictions were observed. The site's content is coherent with a television-network portal rather than a phishing, investment, or payment-service operation; the homepage uses the Star TV identity consistently and presents ordinary broadcast content. Technical interaction testing found no login form, hidden sensitive form, wallet connection, clipboard manipulation, cloaking, or other abuse pattern. Dynamic page changes and console errors were observed as implementation characteristics, but they were not accompanied by phishing or credential-capture indicators. The available evidence is therefore consistent with an established, apparently legitimate website, while independently connecting the site to a specific real-world operator remains unresolved.

EVIDENCE

- The homepage identifies itself as "Startv.com.tr – Star TV Resmi İnternet Sitesi" and presents programme listings, trailers, news, and live-viewing links.
- Behavioural testing recorded no hidden forms, password submissions, wallet-provider activity, wallet-drainer activity, or clipboard hijacking.
- The domain was registered on 1997-09-05 and is approximately 28.96 years old.
- External reputation checks recorded no malicious or suspicious detections, and no phishing or impersonation contradiction was identified.

Regulatory Verification Notes

The reviewed site presents a broadcast and entertainment service, not a financial product or other regulated transaction service. The available page evidence does not establish the legal entity operating the website independently, and no licensing or registration number is stated in the reviewed content; this is a transparency item for confirmation rather than evidence of fraud. No adverse broker-reputation match was identified. The domain, transport security, and hosting signals provide affirmative evidence of an established technical presence, although they do not prove the operator's legal identity.

EVIDENCE

- The homepage's stated function is television broadcasting and entertainment, with advertising and personalization consent mechanisms.
- Hosted on AS13335, CLOUDFLARENET – Cloudflare, Inc., US.
- TLS certificate issued by WE1 at DV validation level, valid to 2026-11-08T16:00:13+00:00.
- No matching third-party broker record was identified.

What to Verify Next

Before any credential or payment interaction, independently confirm that the relevant account, service, and contact channels belong to the intended Star TV operation. Where a transaction, subscription, or commercial promotion is involved, confirm the responsible merchant identity, applicable terms, any return or cancellation provisions, and available payment-protection mechanisms through an independent route rather than relying solely on the website's own presentation.

EVIDENCE

- The independent operator identity remains unverified despite the site's established content and technical profile.
- The reviewed homepage contains no sensitive form, so any later login or payment flow should be assessed separately at the point of use.
- The site's apparent function is media distribution and advertising, making the identity of any separate commercial partner material to transaction decisions.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website with a high-trust, low-risk posture and no observed scam or impersonation contradiction. The positive assessment concerns the website's observable trust signals and content behaviour; it does not independently prove the real-world identity of its operator.

Infrastructure Integrity

The website is fronted by Cloudflare CDN/WAF infrastructure, and the observed addresses were CDN edge servers rather than identified origin candidates. This architecture reduces direct origin exposure and is a mitigating security control, but it is not proof of legitimacy.

Closing Assessment

Routine content viewing is proportionate to the available risk posture; any future credential, subscription, or payment activity should follow ordinary independent identity, terms, and payment-protection checks.

Written analysis generated 2026-08-13 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of startv.com.tr.

- The request stayed on startv.com.tr. It was not redirected to another domain. [CLEAR](#)
- DNS for this domain is served by cloudflare.com. [NOTED](#)
- The registration is paid up to 2027-09-04. [NOTED](#)
- It is hosted on CLOUDFLARENET, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about startv.com.tr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
