Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2017.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Stolychna Jewelry Factory operates an online jewelry store presenting gold and silver jewelry, diamonds, watches, gifts, custom products, promotions, delivery across Ukraine, store pickup, warranty and service, and an informational blog. Its apparent business model is conventional retail commerce through an online catalog.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent retail identity, ordinary product purchasing, delivery and returns, service information, and contact facilities, with no phishing, impersonation, credential-harvesting, or financial-manipulation indicators. External reputation checks were clean, supporting the conclusion that the site is an established legitimate retailer rather than a deceptive storefront.

- Domain registration record: registered 2014 (~11.65 years old).
- Web-archive history: 174 snapshots spanning 2017–2026 (10 years tracked).
- External reputation: 0 malicious and 0 suspicious detections; the domain is ranked 79,401 globally and within the top one million.

Regulatory Verification Notes

The site provides company information, contacts, warranty and service details, delivery and payment information, and exchange and return pages. No specific license or registration number is claimed in the supplied evidence; for an ordinary jewelry retailer, this is a transparency point requiring confirmation rather than evidence of deception. The registrar and transport-security records provide additional administrative and technical continuity.

- Domain registrar: ТОВ "Інтернет Інвест".
- Hosted on AS13335 (Cloudflare, Inc.).
- TLS certificate issued by WE1 (DV), valid to 2026-09-27T07:21:14+00:00.

What to Verify Next

Before a material purchase, confirm the applicable business-registration and consumer-protection details through the relevant Ukrainian registry, and independently confirm the store's official contact channels and return procedures using the site's contact, delivery, and exchange pages.

- The contact page publishes telephone contact options and opening hours.
- Delivery and payment information is presented as a dedicated customer-service page.

- Exchange, return, warranty, and service information is separately documented on the site.

Summary Verdict

The site presents as a legitimate, established, and trustworthy commercial entity with a coherent business purpose, sustained web presence, clean external reputation, and no observed impersonation or phishing contradiction. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, with all observed addresses belonging to Cloudflare edge servers and no origin address identified. This reduces direct exposure of the underlying host and is a mitigating infrastructure characteristic, not independent proof of legitimacy.

Closing Assessment

Prospective customers may proceed with normal browsing, account access, and purchases, applying ordinary retail checks for significant transactions.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	74%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

About this assessment

A trust score summarises the evidence TrustSniffer could collect about stolychnashop.com.ua at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
