Full analysis

Overview

Storenvvy is a socially oriented multi-vendor ecommerce marketplace where independent brands, artists, makers, and sellers offer physical and digital goods through storefronts, with shopping categories, account services, and payment processing through Stripe and PayPal.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent marketplace identity, seller onboarding, product discovery, account functions, policies, support details, and established social links, while page analysis found no phishing, impersonation, deceptive financial, or malicious-content indicators.

- The homepage identifies Storenvvy as an online marketplace for independent brands and creators and provides product categories, seller-store creation, and account functions.
- External reputation checks recorded zero malicious or suspicious detections, no blacklist hit, and zero abuse reports.
- The domain was registered in 2008 and is approximately 18.32 years old.
- Archival coverage contains 1 snapshot spanning 2026–2026; this is limited historical coverage, not evidence of a recent domain.

Regulatory Verification Notes

The site presents marketplace policies, payment information, support details, and seller-facing services, but no licensing claim or registration number is supplied in the available content. This is a transparency point for business-specific regulatory review, not evidence of deception. Registration privacy is an administrative detail, and the broader identity, reputation, and operational signals support an established legitimate service.

- The homepage provides policy, support, seller-onboarding, and payment-related content.
- The registered domain provider is ENOM, INC.
- The site is served from AS13335 (Cloudflare).
- TLS is issued by YE2 at DV validation level and is valid through 2026-10-10.

What to Verify Next

For institutional or regulated use, confirm any applicable marketplace, payments, consumer-protection, or seller-service obligations with the relevant jurisdictional registry and review the site's current terms, refund, and seller

policies before onboarding at scale. Official support and payment channels should be confirmed through the site's published policy and account flows.

- The homepage exposes account, seller, payment, shipping, and returns-related functions.
- The site supports login, registration, and password-reset forms.
- Payment processing is described as using Stripe and PayPal.

Summary Verdict

Storenvvy presents as a legitimate, established, and trustworthy ecommerce marketplace with a clean external reputation and no observed impersonation or phishing contradictions. Normal interaction, including account login, purchasing, seller onboarding, and standard account actions, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare's CDN/WAF infrastructure, with observed traffic terminating on Cloudflare edge addresses and no origin candidates identified. This reduces direct origin exposure and is a meaningful defensive control, while remaining a mitigating infrastructure signal rather than proof of legitimacy.

Closing Assessment

Standard use is appropriate; organizations conducting higher-volume commercial activity should apply their normal procurement, contractual, and regulatory controls.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about storenvyy.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
