Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2010.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

SuaTV is a Brazilian business-software and managed-services website presenting corporate television, digital signage, indoor media, interactive TV, and internal-communications solutions for organizations.

Scam/Impersonation Risk

No contradictions were observed across the reviewed pages and technical signals. The site presents a coherent corporate SaaS model, with no phishing, impersonation, malware, or suspicious behavioral indicators; its established domain history and clean external reputation further support authentic operation.

- Domain registered in 2010 and approximately 16.45 years old, based on the site's registration record.
- 142 web-archive snapshots spanning 2010–2026, covering 17 years.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing hit.
- The homepage showed no login form, hidden forms, wallet activity, cloaking, or suspicious scripts.

Regulatory Verification Notes

The reviewed pages describe commercial software and managed communication services rather than a regulated financial offering. No regulatory license or registration number is claimed on the reviewed site pages; this is a limited disclosure point for procurement verification, not evidence of deception. Privacy and data-processing disclosures are present, and the published corporate identity is consistent across the available material.

- The homepage identifies solutions including corporate TV, indoor media, internal-communications software, and interactive TV.
- Privacy and data-processing disclosures are available on the site.
- Hosted on AS13335, Cloudflare, Inc., United States.
- TLS certificate issued by WE1 using domain validation, valid to 2026-10-08.

What to Verify Next

Before contracting, the prospective customer should confirm the contracting entity, service scope, data-processing responsibilities, and commercial terms through the site's formal business channels and ordinary procurement controls.

- The homepage provides business-service descriptions and a demonstration-request pathway.

- The site includes contact, privacy, and data-processing materials relevant to vendor onboarding.
- Corporate social channels are linked through Facebook, YouTube, LinkedIn, and Instagram.

Summary Verdict

The website has a high-trust posture and reads as a legitimate, established business-services provider. Its identity, operating model, technical stability, historical continuity, and external reputation converge without material contradiction.

Infrastructure Integrity

Cloudflare CDN/WAF protection fronts the site, with observed traffic served through Cloudflare edge infrastructure on AS13335; no origin candidate was observed. This reduces direct origin exposure and is a mitigating infrastructure signal, but does not independently establish legitimacy.

Closing Assessment

Normal interaction, including account login and standard use, is appropriate; prospective customers should apply routine enterprise procurement and data-governance controls before entering a commercial relationship.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of suatv.com.br.

- The request stayed on suatv.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2028-02-21. CLEAR
- The earliest public archive of this site is from 2010-03-26. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about suatv.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
