Full analysis

Overview

Supérate BBVA is an educational platform for students, schools, teachers, and Fundación BBVA México scholarship recipients, offering personalized diagnostics, learning activities, teacher resources, university-exam preparation, and progress tracking in Mexico.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent educational purpose, with diagnostics, personalized learning paths, teacher training, and exam practice rather than financial solicitation, credential harvesting, or deceptive commercial claims. Site behavior showed no phishing indicators, hidden forms, wallet activity, cloaking, or suspicious external network activity.

EVIDENCE

- The homepage identifies Supérate BBVA as an education and training platform supporting students, teachers, schools, and scholarship recipients.
- The domain was registered on 2022-12-19 and is approximately 3.62 years old.
- Historical coverage records 569 archive snapshots across 4 tracked years, from 2023-02-20 through 2026-05-18.
- External reputation checks recorded no malicious or suspicious detections.

Regulatory Verification Notes

The site's stated model is educational and informational, not a financial or investment service. Privacy information and a physical address are present, while no regulated financial license is claimed; this is a transparency point for institutional review, not evidence of impersonation or fraud. The platform's association with Fundación BBVA México should be understood as a stated institutional context rather than an independent legal or regulatory determination.

EVIDENCE

- The homepage describes diagnostics, personalized learning, teacher resources, and university-exam preparation without presenting a direct payment or investment model.
- The site presents privacy policies and a physical address.
- The site is served through AS8075, Microsoft Corporation, US.
- TLS uses an OV certificate issued by DigiCert Global G2 TLS RSA SHA256 2020 CA1, valid through 2026-08-28.

What to Verify Next

Institutional users should confirm the program relationship through an independent Fundación BBVA México channel and review the site's privacy terms before deploying it in a school or scholarship workflow. Any future feature involving regulated financial activity would require separate licensing verification with the relevant authority.

EVIDENCE

- The homepage provides distinct entry points for students, schools, and teachers.
- The site includes privacy and data-protection information relevant to educational deployments.
- The platform's stated purpose is educational rather than financial.

Summary Verdict

The site presents as a legitimate, established, and trustworthy educational service. Its identity, content, historical continuity, technical operation, and external reputation converge without observed contradiction, supporting normal use.

Infrastructure Integrity

The site benefits from CDN/WAF protection, with the observed edge address hosted on AS8075 by Microsoft Corporation; the origin server was not observable. This protective architecture mitigates direct exposure of the underlying service but is treated as a supporting control rather than proof of legitimacy.

Closing Assessment

Normal interaction, including account login and standard use, is appropriate for the platform's stated educational purposes.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about superateconfundacionbbva.mx at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
