Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 1999.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Syntech is an established technology distributor and online retailer serving consumers, businesses, and resellers through a broad catalogue of electronics, computer components, appliances, peripherals, promotions, and related commercial services.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or confirmed blacklist findings were observed. The homepage presents a coherent ecommerce model with extensive product categories, recognized technology brands, company information, policies, multiple offices, and established contact channels. The site's long operating history and clean external reputation further support continuity and legitimacy.

- The homepage contains 13,937 characters of substantive ecommerce content covering technology products, appliances, components, peripherals, reseller services, promotions, and company information.
- The domain was registered on 2004-03-08 and is 22.41 years old.
- 956 web-archive snapshots span 1999–2026, covering 28 tracked years.
- Independent reputation checks recorded 0 malicious detections, 0 suspicious detections, and 0 abuse reports; the domain is ranked 388631 globally.

Regulatory Verification Notes

The reviewed pages describe a commercial technology-distribution and retail business rather than a financial or otherwise licensed service. Policies, company values, physical offices, contact details, and reseller information provide meaningful business disclosure; no specific regulatory license claim or license number was identified, which is a limited transparency note rather than evidence of deception. A separate broker-reputation comparison produced no match.

- The homepage identifies the business as a technology distributor and retailer serving consumers, businesses, and resellers.
- The site publishes policies, company information, promotions, and multiple physical office references.
- Hosting is on AS13335, operated by CLOUDFLARENET - Cloudflare, Inc., US.
- TLS uses issuer WE1 with DV validation and is valid through 2026-09-17.

What to Verify Next

For procurement or reseller engagement, confirm the applicable delivery, warranty, returns, and payment terms against the relevant policy pages, and independently confirm official business and contact details before entering into a material commercial arrangement. Where a regulated transaction is contemplated, confirm the relevant licensing requirement with the applicable registry.

- The homepage exposes product categories, commercial services, policies, and contact information for review.
- The site maintains dedicated company and policy content supporting ordinary commercial due diligence.
- The business model is identified as ecommerce distribution and retail, with no regulated financial-product features detected.

Summary Verdict

The site has a high-confidence, established-business posture supported by consistent commercial identity, substantial site content, long-term provenance, clean reputation signals, and stable technical operation. No evidence indicates scam activity, impersonation, phishing, or material identity conflict.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, with observed traffic served through Cloudflare edge addresses and no origin candidate identified. This reduces direct exposure of the origin environment and is a mitigating infrastructure characteristic, not independent proof of legitimacy.

Closing Assessment

Normal interaction, including account login, purchasing activity, and standard commercial use, is appropriate, subject to ordinary procurement controls proportionate to transaction value.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=5

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of syntech.co.za.

- The request stayed on syntech.co.za. It was not redirected to another domain. CLEAR
- Registration is published under xneelo (Pty) Ltd. CLEAR

- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-03-08. NOTED
- The earliest public archive of this site is from 1999-11-29. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about syntech.co.za at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
