Full analysis

Overview

The website is a Russian local news and city-information portal focused on Syzran and the Samara region, presenting news categories, community articles, weather, reference information, publication contacts, and a directory of local businesses. Its apparent business model is advertising, sponsored placements, and directory listings.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents consistent editorial content covering local government, community affairs, culture, public services, incidents, weather, and regional business, with no phishing forms, financial-deception claims, brand impersonation, or other fraud indicators. The site therefore reads as an established local information service rather than an impersonation or scam operation.

- The homepage identifies the publication as “маленькая Сызрань” and provides structured local-news categories and current articles.
- The domain was registered in 2008 and is approximately 18.03 years old.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing finding.

Regulatory Verification Notes

The site's content is editorial and informational rather than a financial or investment service, so no financial licensing claim is apparent or necessary from the stated business model. Publication contact and media-registration information are presented in the site content; any formal corporate or publication-status verification remains a routine transparency check rather than an indication of deception. No adverse broker-reputation match was identified.

- The homepage describes news, articles, weather, local references, and a business directory rather than regulated financial products.
- The site content includes publication contact details and media registration information.
- Hosted on AS44112 (SWEB-AS — SpaceWeb Ltd, RU).
- TLS certificate issued by GlobalSign GCC R6 AlphaSSL CA 2025, DV validation, valid to 2026-11-15.

What to Verify Next

For institutional onboarding, independently confirm the publication’s contact and registration details through the relevant Russian media registry or an established offline contact route, then apply normal vendor due-diligence procedures proportionate to any advertising, sponsorship, or directory arrangement.

- The homepage contains publication contact details suitable for independent cross-checking.
- The site presents a defined local-news and business-directory operating model.
- The domain’s current registration expires on 2027-07-23.

Summary Verdict

The website presents a high-trust posture supported by established operation, coherent editorial purpose, clean reputation results, and consistent site behavior. Normal interaction, including standard account activity where offered, is appropriate.

Infrastructure Integrity

The site resolves directly to one likely origin address and does not appear to use a CDN or WAF. It is hosted by SWEB-AS — SpaceWeb Ltd in Russia; this offers limited additional edge-layer protection but does not undermine the site’s established trust assessment.

Closing Assessment

Standard browsing and normal use are appropriate, with routine independent confirmation of publication details sufficient for formal institutional engagement.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about syzran-small.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
