

Is tekkietown.co.za legit? TrustSniffer's high-trust assessment: 93/100

tekkietown.co.za

Verdict

93
OUT OF 100

HIGH TRUST

tekkietown.co.za appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-12 by automated analysis. Classification confidence 55%.

What this site appears to be

Public-facing ecommerce homepage for Tekkie Town (Pepkor group) listing footwear and apparel, showing prices, promotions, cart and account features, newsletter signup and policy links.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

The website is Tekkie Town, a public-facing online retail storefront presenting branded footwear, apparel, accessories, product prices, promotions, shopping-cart functionality, customer accounts, delivery information, and policy pages for direct consumer sales.

Scam/Impersonation Risk

No contradictions were observed: the supplied evidence contains no phishing, impersonation, blacklist, or malicious-content finding. The homepage presents a coherent retail model with product categories, prices, promotions, cart and account functions, while references to the Pepkor group and linked social-presence channels provide supporting identity context without independently proving the real-world operator. A set of abuse reports concerns a shared Shopify delivery-network IP, not the website specifically; the signal is discounted because the IP is whitelisted, attributed to shared infrastructure, and carries zero confidence. Overall, the available evidence is consistent with an established, apparently legitimate site.

EVIDENCE

- Homepage: branded footwear, apparel, accessories, prices, promotions, cart functionality, and account access are presented as a conventional ecommerce storefront.
- External reputation checks: 0 malicious detections, 0 suspicious detections, and no blacklist or phishing finding were recorded.
- Hosting-IP reputation: 17 reports were associated with 23.227.38.74, attributed to shared Shopify infrastructure, with a confidence score of 0 and whitelisted status.
- Domain registration: registered 2005; approximately 21.35 years old; registrar xneelo (Pty) Ltd.

Regulatory Verification Notes

The site provides terms, privacy, delivery-and-returns, contact, and account-related pathways, and its content references the Pepkor group. The real-world operator identity remains likely rather than independently verified, so those on-site references should be treated as identity claims and supporting context, not proof of ownership. The supplied content does not present a licensing authority or license number; this is a transparency and verification point rather than evidence of a scam. The reference to corporate store-credit or finance products makes confirmation of the applicable consumer-finance disclosures and regulatory permissions appropriate where those services are offered.

EVIDENCE

- Policy navigation: links are present for privacy, terms and conditions, and delivery and returns.
- Homepage content: the storefront identifies itself as Tekkie Town and references the Pepkor group.
- Hosting telemetry: served from AS13335, CLOUDFLARENET — Cloudflare, Inc., US.
- Transport security: TLS certificate issued by YE2, domain-validated (DV), valid to 2026-10-29.

What to Verify Next

Before credential or payment interactions, independently confirm the merchant's legal identity through an appropriate corporate or official business registry, compare the published delivery-and-returns terms with the intended purchase, and confirm available payment-protection and dispute mechanisms. If store-credit or finance services are being considered, confirm the responsible provider, applicable disclosures, and relevant licensing through the competent regulator. Contact channels should also be confirmed through an independently sourced official route.

EVIDENCE

- Account and checkout pathways: the homepage provides sign-in, registration, cart, and checkout functions that warrant ordinary credential and payment checks.
- Delivery-and-returns page: the site provides a dedicated policy pathway for comparison with the proposed transaction.
- Terms page: the site provides a dedicated terms-and-conditions pathway for checking contractual and merchant details.
- Social links: Facebook, Instagram, TikTok, and YouTube channels are linked from the site and can support independent channel comparison.

Summary Verdict

The overall posture is **high trust and low risk**, with evidence consistent with an established, apparently legitimate ecommerce website. The classification is strong, but the operator's real-world identity is not independently verified, so legitimacy should be understood as apparent rather than proven.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, and the observed address was a CDN edge address rather than an exposed origin. This is a meaningful mitigation against direct origin exposure and common infrastructure-level abuse, but it is a protective control rather than proof of merchant legitimacy.

Closing Assessment

Normal browsing is appropriate; before submitting credentials or payment details, ordinary independent merchant-identity, return-policy, and payment-protection checks should be completed.

Written analysis generated 2026-08-12 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 17 reports on hosting IP 23.227.38.74 (Shopify, Inc., Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of tekkiatown.co.za.

- The request stayed on tekkiatown.co.za. It was not redirected to another domain. CLEAR
- Registration is published under xneelo (Pty) Ltd. CLEAR
- DNS for this domain is served by host-h.net, across 3 name servers. NOTED
- The registration is paid up to 2027-04-12. NOTED
- It is hosted on CLOUDFLARENET, from a server in CA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about tekkietown.co.za at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
