Full analysis

Overview

Tenis News is a Portuguese-language sports news website focused on tennis, presenting tournament coverage, match results, rankings, interviews, videos, columns, viewing information, and advice-oriented editorial content. Its apparent business model is an established, advertising-supported publishing operation using display advertising, third-party vendors, and related editorial or sponsored-content opportunities.

Scam/Impersonation Risk

No contradictions were observed: the available evidence shows no phishing, impersonation, malicious reputation, or conflicting identity signals. The site's extensive tennis editorial content, consistent sports-news structure, three mainstream social links, and absence of login, payment, wallet-connection, or sensitive password forms are consistent with an informational publisher rather than a credential-harvesting service. Behavioral testing did observe two hidden forms, substantial DOM changes after interaction, and external network activity; however, no password-bearing external forms, wallet activity, clipboard manipulation, cloaking, or malicious scripts were identified, and the surrounding page evidence attributes the broader activity to advertising, analytics, and consent-management behavior. A clean assessment from evaluated external reputation sources further supports the absence of a confirmed abuse pattern.

EVIDENCE

- The domain was registered on 2005-01-22 and is approximately 21.56 years old, based on the domain registration record.
- Historical records contain 360 snapshots spanning 2005-07-12 through 2026-07-16, covering 22 tracked years.
- The homepage contains extensive tennis-news navigation and editorial topics, while page analysis recorded no red flags, no login form, and no sensitive form.
- External reputation checks recorded 0 malicious and 0 suspicious detections, with the domain ranked 118542 and within the top 1 million.

Regulatory Verification Notes

The site presents itself as a sports publisher rather than a regulated financial, investment, or payment service. No licensing claim or registration number was identified on the supplied site content; for this business model, that is a disclosure and commercial-identity verification point, not evidence of a scam. The registration record names GALLAS COMUNICACAO E INTERNET LTDA, while the available page evidence does not

independently establish that this registrant is the current editorial operator. The apparent legitimacy of the website is therefore evidence-consistent and strong, but the real-world operator identity remains likely rather than independently verified. No matching broker-reputation entry was identified, and the page includes advertising vendor and consent-management disclosures.

EVIDENCE

- The site's homepage and navigation identify it as "Tenis News," with sections for news, tournaments, rankings, interviews, videos, and "Sobre o Site" and "Fale Conosco."
- The registration record lists GALLAS COMUNICACAO E INTERNET LTDA as the owner.
- The site is hosted on AS53055, DIMENOC SERVICOS DE INFORMATICA LTDA, BR.
- The transport certificate is DV, issued by YR2, and valid through 2026-11-03.

What to Verify Next

Before any non-routine commercial, sponsorship, or data-sharing engagement, the prospective counterparty should confirm the operating entity through the site's About and contact pages and, where material, through an independent business registry or offline contact route. Advertising or sponsored-content arrangements should be documented with the contracting entity, payment terms, and applicable editorial or commercial disclosures. Any request for account credentials or payment information outside the site's ordinary reading experience should be validated through an independently confirmed official channel, with payment-protection controls retained.

EVIDENCE

- The site provides dedicated "Sobre o Site" and "Fale Conosco" navigation for identity and contact review.
- The homepage is classified as News / Sports and contains no login or sensitive payment form.
- The stated business model is advertising-supported tennis publishing rather than a regulated financial service.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate low-risk website with a high-trust posture and no observed scam or impersonation contradictions. The site is suitable for ordinary informational use, while operator identity should remain treated as likely rather than proven for engagements requiring credentials, payment, or formal commercial reliance.

Infrastructure Integrity

The site resolves directly to a single likely origin address, with no CDN or WAF detected and no edge-IP layer identified. This provides less protective separation than a proxied edge architecture, but direct hosting is not itself evidence of malicious activity; the infrastructure remains a mitigating technical context rather than proof of legitimacy.

Closing Assessment

Routine reading is proportionate to the available risk posture; before credential or payment interactions, ordinary independent checks of the counterparty, applicable terms, and payment protections should be completed.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about tennisnews.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
