Full analysis

Overview

The website is “The Holocaust Explained,” a non-commercial educational resource designed for schools and other learners, presenting structured material on the Holocaust through topic guides, timelines, maps, survivor testimonies, videos, images, and teaching resources. It states that the resource is managed by The Wiener Holocaust Library and is intended to provide accessible, curriculum-focused historical information rather than sell products or solicit investment.

Scam/Impersonation Risk

No contradictions were observed across the available evidence: there are no indications of phishing, brand impersonation, malicious behavior, or conflicting legal identities. The homepage presents a coherent informational purpose, provides navigation to educational and legal content, and contains no login form, payment mechanism, cryptocurrency functionality, or sensitive-data collection surface. External reputation checks also identified no malicious or suspicious classification, while the site’s sustained historical presence is consistent with an established informational resource rather than a recently created deceptive property.

EVIDENCE

- Homepage: identifies the service as “The Holocaust Explained,” designed for schools, and describes its purpose as explaining the Holocaust through accessible educational content.
- Homepage: states that the site is managed by The Wiener Holocaust Library and links to the institution.
- Domain registration: Registered 2010-02-24 (~16.56 years old); expiration 2028-02-24.
- Web archive: 570 snapshots from 2011-01-28 through 2026-09-02, spanning 16 years tracked, with a maximum recorded gap of 1 year.

Regulatory Verification Notes

The site is informational and non-commercial on its face, so the principal verification issue is institutional attribution rather than financial licensing. Its identity pages and homepage present the Wiener Holocaust Library as the managing institution, but the supplied evidence does not independently verify that real-world connection; the attribution should therefore be treated as apparent rather than proven. The site provides Legal Information, Terms of Use, Privacy & Security, and Online Safety pages, which is a positive disclosure feature, although the available material does not establish a separate regulated-entity registration or license.

EVIDENCE

- Homepage: includes links to “About us,” “Legal Information,” “Terms of use,” “Privacy & Security,” and “Online Safety.”
- About/institutional content: describes the Wiener Holocaust Library as the managing organization and characterizes the resource as a national Holocaust archive.
- Domain registrar: BB-Online UK Limited.
- Hosting and transport: Served from AS16509 (AMAZON-02 - Amazon.com, Inc., US); TLS certificate issued by YR1 (DV), valid to 2026-11-26.

What to Verify Next

Before any credential or payment interaction associated with the institution, confirm the relationship between the domain and The Wiener Holocaust Library through an independently obtained institutional contact channel or an official institutional property. Review the site's Terms of Use, Privacy & Security, and Online Safety provisions for the intended handling of data and permitted use. If a third party requests donations, registration, or payment while referring to this site, confirm the recipient, return or cancellation terms, and available payment protection independently before proceeding.

EVIDENCE

- Homepage: provides the “Visit The Wiener Holocaust Library” and “About us” pathways that can be compared with independently sourced institutional information.
- Legal Information area: presents dedicated Terms of Use, Privacy & Security, and Online Safety content for review.
- Homepage: describes the service as educational and curriculum-focused rather than a commercial or investment platform.

Summary Verdict

The available evidence is consistent with an established, apparently legitimate educational website and supports a high-trust, low-risk posture. The conclusion is strong at the website and content level, while the real-world operator connection remains independently unverified.

Infrastructure Integrity

The available technical assessment identifies no abuse-ready infrastructure condition. Infrastructure can support confidence in normal site operation, but it is only a mitigating technical signal and does not independently establish the operator's identity.

Closing Assessment

Ordinary browsing and educational use are proportionate to the assessed posture; before submitting credentials or making any payment, standard independent checks of institutional identity, applicable terms, and payment protection should be completed.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about theholocaustexplained.org at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
