Full analysis

Overview

ThriveCart is an established SaaS platform for creators and businesses, presenting checkout pages, sales funnels, global payments, subscriptions, affiliate management, analytics, courses, and communities to support digital and physical product sales.

Scam/Impersonation Risk

No contradictions were observed across the site identity, historical presence, and external reputation signals. The homepage presents a coherent commercial SaaS identity, while the domain has sustained historical continuity and no detected malicious, phishing, or impersonation indicators.

- The homepage presents ThriveCart as a SaaS checkout and revenue platform with a consistent brand and business purpose.
- The domain has 1,445 archive snapshots spanning 2012–2026, covering 15 tracked years.
- External reputation checks recorded no malicious or suspicious findings and no blacklist match.

Regulatory Verification Notes

The site presents a Wilmington, Delaware address, compliance claims, subscription pricing, enterprise services, and a conventional software business model. No license or registration number is identified in the supplied page content; this is a transparency item for regulatory confirmation, not evidence of deception. No broker-reputation match was identified.

- The homepage describes recurring SaaS subscriptions, enterprise offerings, and integrated third-party payment processing.
- The domain was registered in 2015 and is approximately 10.71 years old through NAMECHEAP INC.
- The site is hosted on AS14618 (Amazon-AES, Amazon.com, Inc.); its TLS certificate is DV, issued by Amazon RSA 2048 M01, valid through 2026-10-02.

What to Verify Next

Confirm the legal entity associated with the published Delaware address and determine whether any payment activity is performed by regulated third parties. Where applicable to the contracting arrangement, confirm licensing or registration through the relevant official registry and reconcile the published pricing, trial, and enterprise terms with the applicable contract.

- The homepage lists pricing from €42 per month and a 30-day free trial.

- The homepage provides an enterprise offering and compliance-related claims for review against contractual documentation.
- The published contact and address details provide a basis for independent entity verification.

Summary Verdict

The overall posture is established, legitimate, and trustworthy, with normal interaction appropriate for ordinary business use. The evidence supports account login and standard service activity without a scam or impersonation concern.

Infrastructure Integrity

The confirmed Amazon hosting environment and valid mainstream-issued TLS certificate provide sound baseline transport and hosting integrity. No separate CDN, WAF, or origin-exposure assessment is supplied in the available evidence, so infrastructure remains a mitigating factor rather than proof of legitimacy.

Closing Assessment

Prospective users may proceed with normal account and service use, applying standard organizational controls for subscriptions, access, and data handling.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about thrivecart.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
