- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2015.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

TIMES Indonesia is an established Indonesian news and information portal presenting national, regional, political, economic, sports, education, health, lifestyle, entertainment, and fact-checking content, supported by advertising, sponsored or commerce content, subscriptions, and digital newspaper products.

Scam/Impersonation Risk

No contradictions were observed across the site's identity, content, behavior, and external reputation signals. The homepage presents a coherent editorial-news model, with named articles, authors, broad topical coverage, fact-checking, interviews, and digital newspaper features rather than deposit solicitation or promised financial returns. No brand-impersonation, phishing, hidden-form, wallet, or deceptive-interaction indicators were identified.

- The homepage identifies TIMES Indonesia as a news portal and displays broad Indonesian and regional editorial coverage.
- The homepage behavior analysis found no login form, sensitive form, hidden form, wallet connection, clipboard hijacking, or suspicious script activity.
- The domain was registered in 2015 and is approximately 11.54 years old.
- The site has 567 archive snapshots spanning 2015–2026, covering 12 years.

Regulatory Verification Notes

The site's apparent business is editorial publishing rather than a regulated financial service, so no financial license is expected from the observed model. Privacy and terms links, visible contact details, and a physical address support ordinary disclosure practices; however, the supplied evidence does not establish a specific corporate-registration number or regulated-license credential. This is a limited transparency item, not an indication of deception. No adverse broker-reputation match was identified.

- The homepage links to privacy and terms information and presents contact and physical-address details.
- Registration is through PT Digital Registra Indonesia, with expiration recorded for 2027-01-19.
- The site is hosted on AS13335 (Cloudflare); its TLS certificate is issued by WE1 at DV validation level and is valid through 2026-10-21.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist finding.

What to Verify Next

For any formal partnership, advertising arrangement, or subscription procurement, confirm the contracting entity and applicable commercial terms through the site’s published legal and contact pages. Where a regulated activity is proposed separately from ordinary news publishing, confirm the relevant authorization directly with the responsible national registry.

- The homepage identifies the publication’s editorial scope and commercial features, including advertising and subscriptions.
- The site provides privacy and terms links that can be reviewed for contracting and data-use provisions.
- The contact page and published physical address provide channels for entity and commercial verification.

Summary Verdict

TIMES Indonesia presents as a legitimate, established, and trustworthy news publisher with a coherent identity, sustained public presence, clean reputation, and no observed impersonation or abuse indicators. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare’s CDN/WAF, and the observed addresses are CDN edge servers rather than an exposed origin. This reduces direct origin exposure and is a mitigating infrastructure control, although it is not by itself proof of legitimacy.

Closing Assessment

Standard browsing, account activity, and ordinary subscription or publishing-related interactions are appropriate within the site’s stated business model.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of timesindonesia.co.id.

- The request stayed on timesindonesia.co.id. It was not redirected to another domain. CLEAR

About this assessment

A trust score summarises the evidence TrustSniffer could collect about timesindonesia.co.id at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
