Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2019.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

The National Lottery Community Fund website is an established UK public-benefit funding service that explains its mission, publishes community-grant programmes, supports applications and grant management, and provides organizational news and resources.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent charitable funding model rather than soliciting deposits or promising financial returns, and the content contains no phishing, impersonation, or deceptive financial indicators. Continuous historical presence and clean external reputation materially support the conclusion that the site is legitimate.

- The homepage describes community grants, funding programmes, application guidance, and grant management.
- The domain was registered on 2018-09-17 and is approximately 7.88 years old.
- The site has 1,882 archive snapshots spanning 2019-01-31 to 2026-07-28 across 8 tracked years.
- External reputation checks recorded 0 malicious and 0 suspicious detections.

Regulatory Verification Notes

The site communicates a clear public-benefit purpose and provides organizational information, reports, policies, and funding guidance. No license authority or registration number is stated in the supplied page evidence; this is a transparency item for independent confirmation, not evidence of deception. Registration through Tucows Inc. and valid transport security provide additional infrastructure assurance.

- The homepage identifies “The National Lottery Community Fund” and links to organizational resources, corporate documents, and reports.
- The domain registrar is Tucows Inc t/a Tucows.
- The site is hosted on AS8075, Microsoft Corporation, US.
- TLS uses GeoTrust TLS RSA CA G1, DV validation, and is valid through 2026-09-11.

What to Verify Next

Confirm the organization’s current legal and any applicable regulatory status through authoritative UK public records, and use the official funding and application pathways presented on the site. Contact details should be

independently matched against those authoritative records before any sensitive administrative exchange.

- The homepage provides regional funding sections and an application portal.
- The “About us” navigation exposes people, boards, strategy, corporate documents, reports, and policies.
- The site publishes grant-management guidance for funded projects.

Summary Verdict

The website presents a legitimate, established, and trustworthy public-benefit organization with strong identity continuity, coherent content, clean reputation signals, and no observed contradiction. Normal interaction, including account access and standard site use, is appropriate.

Infrastructure Integrity

The website is protected by CDN/WAF infrastructure, with observed edge addresses hosted on AS8075 by Microsoft Corporation; no origin candidate was identified in the supplied infrastructure analysis. This protective architecture mitigates direct origin exposure but is treated as a supporting control rather than proof of legitimacy.

Closing Assessment

Proceed with normal site interaction and funding-related workflows, while independently confirming official organizational records when formal verification is required.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

About this assessment

A trust score summarises the evidence TrustSniffer could collect about tnlcommunityfund.org.uk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
