

Is todtv.com.tr legit? TrustSniffer's high-trust assessment: 100/100

todtv.com.tr

Verdict

100

OUT OF 100

HIGH TRUST

todtv.com.tr appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-10 by automated analysis. Classification confidence 70%.

What this site appears to be

Turkish streaming service landing page (TOD) offering subscription packages for movies, series and live sports with account login and purchase flows, cookie disclosures and device compatibility information.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2022.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is a Turkish streaming and subscription platform branded as TOD TV, presenting movies, television series, live sports, television channels, package offers, account login, and purchase flows. Its apparent business model is recurring paid access to entertainment and sports content across compatible devices, supported by subscription revenue and advertising partners.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent commercial streaming service, and the available technical and behavioral evidence does not indicate phishing, brand impersonation, malicious content, hidden forms, suspicious external submissions, or wallet-related activity. External reputation checks were clean, and the site's established historical continuity is consistent with an operating consumer service rather than a newly created impersonation. The available evidence supports an apparently legitimate, low-risk website, although the real-world operator identity remains independently unverified.

EVIDENCE

- The homepage identifies TOD TV and presents consistent categories for films, series, sports, live television, packages, login, and purchase.
- The site's domain was registered on 2022-04-29 and is approximately 4.28 years old.
- Web-archive records contain 82 snapshots spanning 2022-11-05 to 2026-08-01, with 5 years tracked and no suspicious repurposing or material semantic drift identified.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, and a global traffic rank of 41850.

Regulatory Verification Notes

The site operates as a commercial subscription service rather than presenting itself as a regulated financial platform. The homepage advertises an initial one-month offer at 9 TL, an entertainment package priced at 9 TL for the first month and 129 TL thereafter, and sports packages starting at 229 TL; these recurring-payment mechanics make merchant identity, cancellation terms, and consumer-payment protections relevant. Available page evidence includes cookie and privacy disclosures and device-compatibility information, but no licensing claim or registration number is identified. This is a transparency item for ordinary commercial verification, not evidence of a scam. The operator's real-world identity is not independently verified, so the site's legitimacy should be described as apparent and evidence-consistent rather than proven.

EVIDENCE

- The homepage contains recurring subscription offers, a one-month trial-style promotion, account login, and purchase/checkout flows for sports and entertainment packages.
- The site's hosting infrastructure is served from AS16509 (AMAZON-02 - Amazon.com, Inc., US).
- TLS uses GlobalSign GCC R6 AlphaSSL CA 2025 with DV validation and is valid through 2027-01-17T10:44:46+00:00.
- The site presents cookie and privacy disclosures and device-compatibility information on its service pages.

What to Verify Next

Before credential or payment interaction, an independent check should connect the service to a clearly identified merchant or operating company and confirm the applicable cancellation, renewal, refund, and consumer-support terms. Payment should use a method offering appropriate dispute or chargeback protection, and official support channels should be confirmed through an independent route rather than relying solely on contact details displayed during checkout.

EVIDENCE

- The homepage provides both login and purchase/checkout functions, making account and payment controls directly relevant.
- Package offers state different first-month and subsequent-month prices, requiring confirmation of recurring billing terms before purchase.
- The available page evidence identifies cookie and privacy disclosures but does not independently establish the operating entity.

Summary Verdict

The available evidence supports a **high-trust, low-risk posture** and is consistent with an established, apparently legitimate website. The principal qualification is that the real-world operator has not been independently verified, so the trust assessment should not be treated as proof of legal identity.

Infrastructure Integrity

The site is protected by AWS CloudFront CDN/WAF infrastructure. All four observed addresses are CDN edge servers on AS16509, and no origin candidate was identified; this reduces direct origin exposure and is a useful mitigating control, but protective infrastructure alone does not establish legitimacy.

Closing Assessment

Normal browsing is proportionate to the assessed posture, while credentials and payments should follow the ordinary independent merchant-identity, cancellation-term, and payment-protection checks appropriate for any subscription service.

Written analysis generated 2026-08-10 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of todtv.com.tr.

- The request stayed on todtv.com.tr. It was not redirected to another domain. CLEAR
- DNS for this domain is served by awsdns-17.com. NOTED
- The registration is paid up to 2028-04-28. CLEAR
- The earliest public archive of this site is from 2022-11-05. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about todtv.com.tr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
