

Is topmidianews.com.br legit? TrustSniffer's high-trust assessment: 100/100

topmidianews.com.br

Verdict

100

OUT OF 100

HIGH TRUST

topmidianews.com.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-04 by automated analysis. Classification confidence 75%.

What this site appears to be

Portuguese-language homepage of Portal TOP Mídia News, a regional publication covering Campo Grande and Mato Grosso do Sul with sections for politics, policing, cities, health, videos, and other local topics. It provides newsroom contact details and institutional, advertising, contact, and terms links without presenting sensitive forms or suspicious financial interactions.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is an established Portuguese-language regional news portal serving Campo Grande and Mato Grosso do Sul, presenting current reporting on politics, public safety, cities, health, weather, local events, and video journalism through an advertising-supported publishing model.

Scam/Impersonation Risk

No identity contradictions, phishing indicators, brand impersonation, or malicious reputation findings were observed. The homepage presents a coherent regional-news identity, substantial editorial coverage, and no investment, payment, cryptocurrency, or other high-risk financial proposition. Its long registration history and continuous archival record materially support provenance and are consistent with an established publication rather than a recently created deceptive operation.

- The domain record shows registration on 28 September 2011, making the domain approximately 14.86 years old.
- The web archive contains 422 snapshots from 20 October 2013 through 7 July 2026, spanning 14 tracked years, with no suspicious repurposing or semantic drift identified.
- The homepage contains 3,983 characters of substantive editorial text across regional politics, policing, cities, health, weather, and video coverage.
- External reputation checks recorded 0 malicious and 0 suspicious detections, no harmful-search classification, no reported infrastructure abuse, and a global traffic rank of 166,984.

Regulatory Verification Notes

The site operates as a news and media publication rather than a broker, investment service, or deposit-taking platform. No financial licence is claimed, and none is indicated as necessary for the business model presented. The homepage provides links for institutional information, advertising, contact, and terms, although the supplied page evidence does not establish the depth of the legal disclosures behind those links. The domain registration identifies Top Mídia Painéis Publicitários Ltda. as the registrant, providing a concrete corporate identity signal.

- The homepage identifies the service as “Portal TOP Mídia News” and exposes institutional, advertiser-contact, general-contact, and terms links.
- The domain registration names Top Mídia Painéis Publicitários Ltda. as the owner and records expiry on 28 September 2026.

- The site's transport encryption uses a WE1-issued domain-validated TLS certificate, valid until 1 November 2026.
- No match was present in the supplied third-party broker-intelligence dataset; this is consistent with the site's non-broker business model and is not a licensing determination.

What to Verify Next

Routine enterprise onboarding may confirm that the corporate registrant and publication identity remain aligned, review the linked terms and institutional material for the intended engagement, and validate official editorial or advertising channels independently before entering a contractual relationship. These are ordinary due-diligence controls rather than responses to an identified security threat.

- The homepage supplies a telephone contact and dedicated navigation paths for institutional, advertising, contact, and terms information.
- The observed homepage contains no login form, password field, sensitive-data form, or payment solicitation.
- Two successful behavioral observations found no cloaking, clipboard manipulation, cryptocurrency-wallet interaction, external password submission, or execution errors.

Summary Verdict

The website is legitimate, established, and trustworthy, with strong convergence across identity, provenance, editorial substance, reputation, and technical security signals. No contradictory evidence was identified, and normal interaction—including account login and standard use where offered—is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare's CDN/WAF, with all four observed addresses operating as edge nodes; this reduces direct exposure of the underlying server but is a security mitigation rather than independent proof of legitimacy.

- The site is served through AS13335 (Cloudflare, Inc.); four Cloudflare edge addresses were observed and no origin candidate was exposed.

Closing Assessment

Prospective users and enterprise counterparties may engage normally, applying standard organizational due diligence for any future contractual, advertising, or commercial arrangement.

Written analysis generated 2026-08-04 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of topmidianews.com.br.

- The request stayed on topmidianews.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2026-09-28. NOTED
- The earliest public archive of this site is from 2013-10-20. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about topmidianews.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
