

Is tradefinder.in safe? TrustSniffer's low-trust assessment: 32/100

tradefinder.in

Verdict

32

OUT OF 100

LOW TRUST

tradefinder.in is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Assessed 2026-08-03 by automated analysis. Classification confidence 55%.

What this site appears to be

TradeFinder markets a paid platform for stock, options, intraday, swing, and crypto trading signals and analysis. The page uses strong profit, accuracy, and success claims, testimonials, and limited-time purchase prompts, but provides little visible regulatory or independently verifiable evidence.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

TradeFinder is a paid financial-services platform presenting stock, options, intraday, swing-trading, and crypto market-analysis tools and signals, with subscription access sold to visitors seeking trade ideas and market guidance.

No confirmed phishing, impersonation, or identity contradiction was observed. However, the homepage promotes “India’s No. 1” positioning, “biggest intraday profit,” trading-accuracy claims, a “50k Trading Challenge,” testimonials, and limited-time purchase prompts without showing comparable independent performance evidence. Its paid signals model covers options, crypto buy/sell signals, scanners, and backtested strategies; these claims create material financial-decision risk when supporting evidence is limited. No anomalous contact address was identified.

The homepage advertises profit, accuracy, success, and limited-time purchase messaging. It presents stock, options, intraday, swing, and crypto signal products. Login functionality is present, but no suspicious form behavior or brand impersonation was observed.

The available evidence identifies Trading Cafe India as the domain organization and GoDaddy.com, LLC as registrar, but the site provides little visible regulatory, audit, or independently verifiable evidence for its financial claims. No license claim or license number is established in the supplied material. The absence of a third-party broker match is contextual only and does not establish authorization.

The domain was registered on 2024-10-16 and expires on 2029-10-16; the recorded age is 1.79 years. The site uses a DV TLS certificate issued by YE1, valid through 2026-09-17. The homepage is categorized as a financial product landing page and contains no visible independent regulatory or audit substantiation in the supplied content.

Before high-value or sensitive activity, confirm any applicable authorization directly with the relevant financial regulator, obtain documented methodology and independently verifiable performance records, and confirm subscription, refund, and payment terms through an independent business channel.

The homepage describes subscription access and upfront premium-platform payments. It provides claims and testimonials but limited independently verifiable supporting evidence. The site’s login and purchase prompts make account and payment-term verification operationally relevant.

TradeFinder presents as an identifiable but insufficiently substantiated financial-services website. No direct contradiction or active threat indicator was found, but the combination of strong performance marketing and limited independent evidence supports a cautious, verification-led trust posture.

The website is protected by Cloudflare CDN/WAF infrastructure, with the observed address treated as a CDN edge rather than a directly exposed origin. This reduces routine exposure of the underlying host but is only a mitigating technical control, not evidence of business legitimacy.

It is hosted on AS16509, Amazon Data Services India / Amazon.com, Inc., US. The observed edge address is 13.200.188.210. Cloudflare was identified as the CDN/WAF provider, with no origin candidate observed.

Standard browsing and account access may proceed with proportionate care, while high-value financial commitments should wait until the relevant authorization, performance evidence, and commercial terms have been independently confirmed.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of tradefinder.in.

- The request stayed on tradefinder.in. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2029-10-16. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about tradefinder.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
