

Is tradeinn.com legit? TrustSniffer's high-trust assessment: 90/100

tradeinn.com

Verdict

90

OUT OF 100

HIGH TRUST

tradeinn.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 55%.

What this site appears to be

Tradeinn ecommerce site (Finnish language view) with account login, password reset, registration, product categories, shipping/returns information, customer reviews and contact details. Contains standard ecommerce legal and cookie/privacy text and a physical company address in Spain.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

Tradeinn is an online retail marketplace presenting sporting goods, fashion, electronics, and do-it-yourself products, with account registration, order management, app promotions, customer reviews, delivery and returns information, and standard ecommerce purchasing functionality.

Scam/Impersonation Risk

No scam, phishing, impersonation, or other identity contradictions were observed. The homepage and account flows present a coherent retail proposition rather than financial-return schemes or abuse-oriented functionality, while external reputation checks were clean and the domain has a strong global traffic footprint. The site appears established and apparently legitimate; however, the real-world operator identity remains independently unverified, so the evidence supports legitimacy without proving who ultimately operates the service.

EVIDENCE

- Homepage and account pages: Finnish-language Tradeinn storefront with product categories, login, registration, password reset, customer reviews, and order-related functionality; no fraud indicators were identified.
- External reputation: 0 malicious detections, 0 suspicious detections, and no search-warning hit; the domain is within the global top one million traffic cohort.
- Domain registration: Registered 2001-08-08; approximately 25.02 years old; registrar Squarespace Domains II LLC.

Regulatory Verification Notes

The privacy and legal content identifies Tradeinn Retail Services SL as the data controller and provides a physical company address in Spain, alongside cookie, privacy, delivery, returns, and customer-support information. The supplied pages do not present a licensing claim or registration number; for a general ecommerce marketplace this is a transparency and merchant-verification matter rather than evidence of a scam. No matching third-party broker warning was identified, but that contextual signal is not a legal or regulatory determination. The operator identity should therefore be treated as apparent rather than independently verified.

EVIDENCE

- Privacy and legal content: Tradeinn Retail Services SL is named as the data controller, with data-rights information and a physical address in Spain.
- Transport encryption: TLS certificate issued by WR3 at DV validation level, valid to 2026-10-19 09:12:53 UTC.
- Hosting telemetry: Served from AS396982 (GOOGLE-CLOUD-PLATFORM - Google LLC, US).

What to Verify Next

Before credential or payment interactions, an organization should independently reconcile the merchant identity shown in the site's legal materials with an authoritative corporate registry. The returns, delivery, refund, and payment-protection terms should be reviewed for the intended transaction, and contact channels should be confirmed through an independently sourced route rather than relying solely on details presented within the site. Account credentials should also be unique to this service.

EVIDENCE

- Legal and privacy pages: provide the identity details to compare against an independent corporate record.
- Shipping and returns pages: provide the commercial terms to review before placing an order.
- Account and password-reset pages: establish the points at which credential protection and account-recovery controls should be assessed.

Summary Verdict

The overall trust posture is high and low risk. Available evidence is consistent with an established, apparently legitimate ecommerce website, with no observed scam or impersonation contradictions. The principal residual uncertainty concerns independent confirmation of the real-world operator rather than evidence of malicious activity.

Infrastructure Integrity

The site is hosted on Google Cloud Platform and resolves to likely origin infrastructure rather than a detected CDN edge; no CDN was identified in the supplied infrastructure facts. Mainstream cloud hosting and the recorded trusted infrastructure posture provide a mitigating signal, but hosting infrastructure alone does not establish merchant legitimacy.

EVIDENCE

- IP-resolution posture: 2 unique IP addresses, 0 edge IP addresses, and 2 likely origin candidates.
- CDN status: CDN detected false; infrastructure resolution status resolved.

Closing Assessment

Ordinary browsing and standard ecommerce use are proportionate to the available risk posture, provided routine independent merchant-identity, commercial-policy, and payment-protection checks are completed before credentials or payment details are submitted.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of tradeinn.com.

- The request stayed on tradeinn.com. It was not redirected to another domain. CLEAR
- Registration is published under Squarespace Domains II LLC. CLEAR
- DNS for this domain is served by googledomains.com, across 4 name servers. NOTED
- The registration is paid up to 2030-08-08. CLEAR
- It is hosted on GOOGLE-CLOUD-PLATFORM, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about tradeinn.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
