

Is tspolice.gov.in legit? TrustSniffer's high-trust assessment: 100/100

tspolice.gov.in

Verdict

100

OUT OF 100

HIGH TRUST

tspolice.gov.in appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-17 by automated analysis. Classification confidence 55%.

What this site appears to be

Official Telangana State Police website offering contact information, emergency numbers, citizen services (FIR, petitions, passport services), organizational details, news, and media galleries. Provides address and helpline numbers; appears consistent with a government portal.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

What the site presents is the official Telangana State Police public-service portal, providing government police information, emergency contacts, citizen services, organizational material, news, and media content rather than a commercial offering.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent government-public-service purpose, with police, fire, ambulance, women's, elder, cybercrime, and child-helpline information alongside FIR, petition, passport-service, and other citizen-service references. The available behavioral evidence found no phishing indicators, hidden forms, external sensitive-form submissions, wallet activity, cloaking, or suspicious inline scripts. The site's apparent institutional identity is supported by its government presentation and related social-presence signals, but the real-world operator connection remains likely rather than independently proven.

EVIDENCE

- Homepage: titled “Telangana State Police — Official Website” and populated with departmental navigation, emergency contacts, and citizen-service information.
- Homepage behavior: no login form, hidden form, password submission to an external destination, wallet activity, or cloaking was detected.
- External reputation assessment: no malicious, suspicious, phishing, or blacklist contradiction was recorded.

Regulatory Verification Notes

The site appears to function as a government department portal, not as a financial, brokerage, or other commercially regulated service. Its identity presentation is consistent across the homepage and organizational material, and the registration record names the Police Department Government of Telangana through the National Informatics Centre registrar. No commercial license claim or license number is presented, which is a disclosure point relevant only if the site is being assessed for a regulated service outside its stated public-service role. The available third-party broker context produced no match and should be understood as contextual reputation information rather than a licensing determination.

EVIDENCE

- Domain registration: created 2014-10-28T06:21:12Z, approximately 11.81 years old, expiring 2026-10-28T06:21:12Z; registrar recorded as National Informatics Centre.
- Registration organization: “Police Department Government of Telangana.”
- Transport encryption: DV TLS certificate issued by GlobalSign GCC R46 AlphaSSL CA 2025, valid through 2027-02-11T11:08:41+00:00.
- About and organizational pages: provide departmental history, mission and vision, ranks, jurisdiction, organizational structures, acts and rules, and tender information.

What to Verify Next

Before credential or payment interactions, an enterprise should independently confirm that the departmental identity and contact channels correspond with an authoritative Telangana government directory or an offline government contact. If a proposed interaction involves a service or transaction beyond ordinary public information, the applicable department, terms, privacy handling, and any service-specific authorization should be confirmed through an independently sourced government channel. Any account or submission should be limited to the stated departmental purpose and reviewed for correct destination and scope.

EVIDENCE

- Homepage: provides the stated emergency and citizen-service contact points against which independently sourced departmental information can be compared.
- About and organizational pages: identify the relevant departmental structures and service areas for confirming the responsible authority.
- Contact and service pages: provide the appropriate basis for checking that any requested submission is within the portal's stated public-service function.

Summary Verdict

The available evidence is consistent with an established, apparently legitimate government website and supports a high-trust, low-risk posture. No scam, phishing, impersonation, or identity-conflict indicators were observed, although the operator’s real-world identity is assessed as likely rather than independently verified.

Infrastructure Integrity

The site is directly hosted on BSNL-NIB — National Internet Backbone, IN, using AS9829, with two likely origin addresses and no detected CDN or WAF edge layer. This is a conventional hosting arrangement and does not, on its own, create a negative legitimacy signal; the valid mainstream-issued TLS certificate provides transport protection.

Closing Assessment

Ordinary public-information use is proportionate to the evidence; credential or payment activity should follow the routine independent identity, service-purpose, and payment-protection checks appropriate to any government portal interaction.

Written analysis generated 2026-08-17 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Identity verified on page
- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of tspolice.gov.in.

- The request stayed on tspolice.gov.in. It was not redirected to another domain. CLEAR
- Registration is published under National Informatics Centre. CLEAR
- DNS for this domain is served by gov.in, across 3 name servers. NOTED
- The registration is paid up to 2026-10-28. NOTED
- It is hosted on BSNL-NIB, from a server in IN. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about tspolice.gov.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
