Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2012.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Taraba State University's website is an established academic institution portal presenting faculties, undergraduate and postgraduate programs, admissions, research, distance learning, student services, institutional projects, news, and contact information; its apparent purpose is to support university administration, education delivery, and public engagement.

Scam/Impersonation Risk

No contradictions, phishing indicators, impersonation signals, or confirmed malicious reputation findings were observed. The homepage presents a coherent university identity and substantial academic and administrative content, while the site's sustained historical presence supports continuity rather than opportunistic repurposing.

- Homepage: no login form, hidden sensitive form, wallet activity, or untrusted form destination was detected.
- Homepage: no brand-impersonation or content red flags were identified.
- Domain history: registered 2012-10-18 and approximately 13.8 years old; 571 archive snapshots spanning 2012–2026 across 15 years.

Regulatory Verification Notes

The site functions as an academic institution portal and does not present a license claim or license number in the supplied analysis. That is a transparency item for institutional verification, not evidence of deception. The external reputation checks contained no malicious or suspicious detections, and the named registrar provides an identifiable registration service.

- Homepage: identifies Taraba State University and provides academic, admissions, research, services, and contact content.
- Registration record: RADIX DOMAINS d/b/a RADIX.NG; expiration 2026-10-18.
- Hosting: served from AS31898 (ORACLE-BMC-31898 - Oracle Corporation, US).
- Transport encryption: TLS issued by YR2, DV validation, valid to 2026-09-11.

What to Verify Next

For formal procurement, enrollment, or payment decisions, independently confirm the institution's current authorization and the relevant admissions or payment instructions through an official education registry or an independently sourced institutional contact route.

- Homepage: presents admissions, faculties, research, student resources, and contact information.

- Homepage: contains two feedback/comment forms and no sensitive credential-collection form.
- Institutional content: describes undergraduate, postgraduate, diploma, and distance-learning education.

Summary Verdict

The website presents as legitimate, established, and trustworthy, with strong alignment between its institutional purpose, substantive content, historical continuity, clean reputation, and stable operation. Normal interaction, including account login and standard use where offered, is appropriate.

Infrastructure Integrity

The site is hosted on identifiable Oracle infrastructure and uses valid domain-validated TLS. This provides a sound protective baseline for transport security and infrastructure stability, while remaining a mitigating control rather than independent proof of institutional legitimacy.

Closing Assessment

Standard browsing, account use, and ordinary institutional transactions may proceed normally, with formal authorization checks reserved for regulated or high-value engagements.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- Identity verified on page

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of tsuniversity.edu.ng.

- The request stayed on tsuniversity.edu.ng. It was not redirected to another domain. CLEAR
- Registration is published under RADIX DOMAINS d/b/a RADIX.NG. CLEAR
- DNS for this domain is served by hostgator.com, across 2 name servers. NOTED
- The registration is paid up to 2026-10-18. NOTED
- The earliest public archive of this site is from 2012-10-22. CLEAR
- It is hosted on ORACLE-BMC-31898, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about tsuniversity.edu.ng at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
