

Is tv2.dk legit? TrustSniffer's high-trust assessment: 90/100

tv2.dk

Verdict

90

OUT OF 100

HIGH TRUST

tv2.dk appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-10 by automated analysis. Classification confidence 75%.

What this site appears to be

Main page of TV 2 Denmark: editorial headlines across news, sport, weather and TV programming. Contains cookie consent and advertising disclosures; links to login/TV 2 Play account management.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 1998.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

TV 2's website is an established Danish news and media portal presenting breaking news, sport, weather, television programming, regional coverage, and entertainment. Its apparent business model combines advertising, targeted advertising and optional subscription-based services through TV 2 Play, with account functionality for personalization and service management.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or conflicting-identity contradiction was observed. The homepage presents a coherent editorial operation with substantial news, sport, weather and television content, and the available reputation checks found no malicious or suspicious classification. Four abuse reports were associated with an IP address used by shared content-delivery infrastructure; that signal is specifically attributed to the shared provider IP, is whitelisted, and carries zero abuse confidence, so it does not materially undermine the site-level assessment. The domain's long registration continuity and consistent historical presence further support an established provenance rather than a recently created or repurposed site.

EVIDENCE

- The homepage presents Danish editorial sections for news, sport, weather, television, entertainment and regional coverage, with no reported phishing or impersonation indicators.
- Independent reputation checks recorded 0 malicious and 0 suspicious detections, with no blacklist or browser-warning hit.
- Domain registration: 1997-12-03; age 28.7 years; registrar Eurodns S.A.
- Archive history: 5,000 snapshots spanning 1998–2021, covering 24 years tracked, with a maximum gap of 1 year.

Regulatory Verification Notes

The site appears to operate as a media publisher and subscription-supported streaming service rather than presenting itself as a financial or otherwise licensed service. The homepage exposes privacy, cookie and account-management functions, but the supplied page evidence does not establish independently verified operator identity or provide a licensing or registration number. A registration record associates the domain with TV 2 Danmark A/S, which is a useful identity signal but not proof that the real-world operator has been independently verified. The site's professional content, established history, clean reputation and valid transport

security are consistent with an established website. The available third-party broker context contains no match, but that is reputational context only and is not a legal or licensing determination.

EVIDENCE

- The registration record lists TV 2 Danmark A/S as the domain owner and Eurodns S.A as registrar.
- The site's transport encryption uses a DV certificate issued by GlobalSign Atlas R3 DV TLS CA 2025 Q3, valid to 2026-10-21.
- The site is served through AS54113, FASTLY - Fastly, Inc., US.
- The homepage links to TV 2 privacy, cookie-settings and account-management functions, but no licensing or registration number is evidenced in the supplied page content.

What to Verify Next

Before credential or payment interactions, an organization should independently confirm the merchant or service identity through an official corporate or service channel, review the applicable TV 2 Play subscription, cancellation and refund terms, and confirm that any payment flow provides ordinary payment-protection and dispute mechanisms. Where a regulated service is being considered, the relevant Danish registry should be checked even though the observed site presents primarily as a media service. Account access should be initiated from a separately verified official channel rather than an unsolicited message or advertisement.

EVIDENCE

- The homepage provides links for TV 2 Login, account settings and TV 2 Play management, making those the relevant account and subscription areas for review.
- Privacy and cookie-setting links identify the site's principal disclosure areas for data-use and advertising practices.
- The observed page contained no sensitive form or untrusted form destination during analysis.

Summary Verdict

The overall posture is **high trust and low risk**, and the available evidence is consistent with an established, apparently legitimate website. No scam or impersonation contradiction was observed, while the real-world operator identity remains independently unverified.

Infrastructure Integrity

The website is protected by Fastly CDN/WAF infrastructure. The observed delivery path exposed a CDN edge address, 199.232.41.91, rather than an origin server address; this is a mitigating exposure-control measure, not proof of legitimacy. The infrastructure resolved through AS54113, and the site presented a valid DV TLS certificate issued by GlobalSign Atlas R3 DV TLS CA 2025 Q3.

Closing Assessment

Ordinary browsing is proportionate to the assessed posture; credentials or payments should nevertheless be submitted only after the service identity, applicable terms and payment-protection arrangements have been checked through independent official channels.

Written analysis generated 2026-08-10 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Signals weighed against the site

- AbuseIPDB: 4 reports on hosting IP 199.232.41.91 (Fastly, Inc., Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of tv2.dk.

- The request stayed on tv2.dk. It was not redirected to another domain. CLEAR
- Registration is published under Eurodns S.A. CLEAR
- DNS for this domain is served by azure-dns.com, across 4 name servers. NOTED
- The registration is paid up to 2026-12-31. NOTED
- The earliest public archive of this site is from 1998-12-05. CLEAR
- It is hosted on FASTLY, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about tv2.dk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
