

Is tv3.lt legit? TrustSniffer's high-trust assessment: 100/100

tv3.lt

Verdict

100

OUT OF 100

HIGH TRUST

tv3.lt appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-04 by automated analysis. Classification confidence 75%.

What this site appears to be

Homepage of tv3.lt, a Lithuanian mass-media portal featuring breaking and general news, current affairs, business, sports, health, lifestyle, entertainment, TV schedules, recorded programs, live broadcasts, and radio content. Repeated advertising labels indicate a conventional ad-supported publishing model.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 1998.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

A Lithuanian mass-media portal, tv3.lt presents domestic and international news, current affairs, business, sports, health, lifestyle and entertainment coverage alongside television schedules, recorded programmes, live broadcasts and radio content, operating as an established advertising-supported publisher within the wider TV3 media offering.

Scam/Impersonation Risk

No identity contradiction, phishing, impersonation or other scam indicator was observed. The homepage presents a coherent news-and-entertainment proposition, while interaction testing found no login form, concealed form, credential forwarding, wallet integration, clipboard interference or cloaking. This consistency is reinforced by extensive historical continuity, a strong global traffic footprint and clean external threat-reputation results.

- The homepage contains substantial editorial content across Lithuanian and international news, politics, business, sport, health, lifestyle, entertainment, television, video and radio.
- Historical records contain 5,000 archive snapshots spanning 1998-05-23 to 2022-03-08, covering 25 tracked years without evidence of suspicious repurposing.
- The domain's technical registration record shows creation on 2017-10-17 and an age of approximately 8.8 years; its broader reconciled domain history extends approximately 28.2 years.
- External reputation telemetry found 0 malicious and 0 suspicious detections, no malicious safe-browsing classification, no abuse reports, and a global traffic rank of 7,866.

Regulatory Verification Notes

The observed service is a conventional media publisher rather than a financial, brokerage or investment platform, and it makes no regulated-financial-service or licensing claim requiring validation in the supplied homepage content. No conflicting legal-entity names were identified. Its advertising-supported model and promotion of related TV3 programming are consistent with the site's stated media purpose; the available page evidence does not, however, establish the particulars of its corporate or editorial-governance disclosures.

- The homepage identifies the service as a news and media portal and displays repeated advertising labels consistent with commercial publishing.
- The homepage contains no cryptocurrency products, investment solicitation or financial-license claim.

- Third-party broker-context data produced no matching broker profile; this is contextual only and is not a licensing determination.
- The site's transport encryption uses a WE1-issued domain-validated TLS certificate, valid until 2026-10-07.

What to Verify Next

For institutional onboarding, advertising placement or content-licensing arrangements, the contracting party's legal name, invoicing details and authority to represent the TV3 media operation should be matched against the executed agreement. Editorial policies, privacy terms and official contact channels should also be confirmed from the site pages used for the intended engagement.

- The assessed homepage establishes the media offering but does not provide the contractual particulars needed for counterparty onboarding.
- No sensitive form or externally directed password form was present on the assessed homepage.
- The observed page completed without redirecting to a different final destination.

Summary Verdict

tv3.It is a legitimate, established and trustworthy media website. Its longstanding and continuous public presence, substantial editorial operation, strong audience footprint and clean security reputation converge on a high-confidence assessment with no contradictory risk signals. Normal interaction, including account login and standard use where offered, is appropriate.

Infrastructure Integrity

The site is served through Cloudflare's mainstream CDN/WAF, which limits direct exposure of the origin server and provides a meaningful protective layer; this infrastructure control mitigates network-level exposure but is not, by itself, proof of legitimacy.

- Hosting telemetry shows service from AS13335 (Cloudflare, Inc., US).
- Both observed addresses—104.20.43.24 and 172.66.174.52—were Cloudflare edge endpoints; no origin candidate was exposed.

Closing Assessment

Prospective users may engage with the site normally, while organizations entering a commercial relationship should apply their standard counterparty-onboarding and contract-validation controls.

Written analysis generated 2026-08-04 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of tv3.lt.

- The request stayed on tv3.lt. It was not redirected to another domain. CLEAR
- The registration is paid up to 2026-10-18. NOTED
- The earliest public archive of this site is from 1998-05-23. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about tv3.lt at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
