

Is tvandvideodoctor.co.za legit? TrustSniffer's high-trust assessment: 100/100

tvandvideodoctor.co.za

Verdict

100

OUT OF 100

HIGH TRUST

tvandvideodoctor.co.za appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-10 by automated analysis. Classification confidence 70%.

What this site appears to be

Established local TV repair and satellite installation company (since 1986) offering DStv/OpenView accredited installations, TV repairs, pickup/delivery, guarantees and contact phone/email information.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2004.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is a local South African television repair and satellite-installation service site presenting DStv and OpenView installations, television repairs, collection and delivery, service guarantees, and related household technology services. Its apparent business model is a conventional local service operation generating revenue from call-outs, repairs, installations, parts, and associated services.

Scam/Impersonation Risk

No contradictions were observed. The site content is coherent with a local repair and installation business, contains no detected phishing, impersonation, or malicious-content indicators, and does not present high-risk financial or cryptocurrency mechanics. The long-running domain record and sustained archival presence support continuity rather than a recently created or obviously repurposed web property. External reputation checks were clean, although these signals support site-level risk assessment and do not independently verify the real-world operator.

EVIDENCE

- The homepage and service pages describe television repairs, DStv/OpenView installations, service guarantees, collection, and local call-out work, with no red flags identified.
- Domain registration: 2004-08-17 (~21.99 years old).
- Web archive: 49 snapshots spanning 2004–2026 (23 years tracked).
- External checks recorded 0 malicious detections, 0 suspicious detections, and no blacklist or phishing hit.

Regulatory Verification Notes

The available evidence is consistent with an established, apparently legitimate local service website, but the operator's real-world identity is not independently verified. The About and Contact areas provide business and contact information, while the supplied site content does not present an independently verified legal-entity record, registration number, or licence number. That is a transparency and verification point—not evidence of a scam—particularly because the site's stated activities are repair and installation services rather than a regulated financial offering. Claims of accreditation and service guarantees should nevertheless be confirmed with the relevant organisations and under the applicable consumer-protection framework. No matching third-party broker-reputation record was identified; this is contextual only and is not a licensing determination.

EVIDENCE

- The site's legal and identity content does not supply a verifiable legal-entity or licence number in the supplied pages.
- The homepage presents accreditation claims for MultiChoice/DStv, OpenView, Aerial King, ElSat, and Star Sat.
- Hosting is identified as Xneelo (Pty) Ltd in South Africa on AS37153.
- The site uses a valid DV TLS certificate issued by YR1, valid to 2026-10-24T13:11:34+00:00.

What to Verify Next

Before credential or payment interactions, independently confirm the merchant identity and the stated accreditation relationships through official organisation channels. The published guarantees, collection arrangements, call-out pricing, and any payment terms should be confirmed in writing, including the applicable return, repair, cancellation, and consumer-protection arrangements. Payment should use a method offering appropriate transaction dispute or recovery protections.

EVIDENCE

- The homepage advertises "Money Back Guarantee," free collection, qualified technicians, and a stated call-out fee of R299.
- The site lists local coverage for Pretoria, Centurion, Sandton, and Midrand and provides telephone and email contact routes.
- The site does not present a sensitive login form or external password-submission form.

Summary Verdict

The overall posture is **high trust and low risk**, and the available evidence is consistent with an established, apparently legitimate website. The classification is strong at the site-risk level, while confidence in connecting the website to a specific independently verified real-world operator remains limited.

Infrastructure Integrity

The site resolves to a single apparent origin address hosted by Xneelo (Pty) Ltd in South Africa on AS37153, with no CDN detected. This is a direct-hosting configuration rather than an edge-protected deployment; it does not itself indicate abuse, and infrastructure characteristics are not proof of legitimacy.

Closing Assessment

Routine engagement is proportionate to the assessed posture, subject to ordinary independent confirmation of merchant identity, service terms, and payment protections before credentials or funds are provided.

Written analysis generated 2026-08-10 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of tvandvideodoctor.co.za.

- The request stayed on tvandvideodoctor.co.za. It was not redirected to another domain. CLEAR
- Registration is published under xneelo (Pty) Ltd. CLEAR
- DNS for this domain is served by host-h.net, across 3 name servers. NOTED
- The registration is paid up to 2026-08-17. NOTED
- The earliest public archive of this site is from 2004-09-22. CLEAR
- It is hosted on Xneelo (Pty) Ltd, from a server in ZA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about tvandvideodoctor.co.za at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
