Full analysis

Overview

TV Gazeta is an established Brazilian broadcast and media website presenting live television, news, sports, recipes, entertainment, lifestyle programming, radio, shopping, and affiliated media properties. Its apparent business model is audience-supported publishing and broadcasting through advertising, sponsorships, audience engagement, shopping, and related media offerings.

Scam/Impersonation Risk

No contradictions were observed. The homepage consistently presents TV Gazeta as a media publisher, identifies Fundação Cásper Líbero, and provides coherent editorial, programming, contact, and privacy information. No phishing, brand-impersonation, malicious, or deceptive financial indicators were identified, and normal account login and standard site interaction are appropriate where offered.

- The homepage identifies TV Gazeta, Fundação Cásper Líbero, and a São Paulo business address.
- The homepage contains live programming, journalism, sports, recipes, entertainment, radio, and shopping content consistent with a broadcaster and media publisher.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing finding.

Regulatory Verification Notes

The site provides an identifiable institutional name, physical address, telephone contact, privacy policy, and contact links. No financial-service licensing claim or registration number is presented, which is a limited disclosure consideration only if a specific regulated transaction or partnership is contemplated; the supplied content otherwise supports a conventional media business model. A separate broker-reputation comparison produced no match and does not constitute a licensing determination.

- The homepage identifies Fundação Cásper Líbero and lists Av. Paulista, 900, Bela Vista, São Paulo, SP, Brazil.
- Domain registration dates to 1996-08-20 and the domain is approximately 29.97 years old, with expiry on 2030-08-20.
- Hosted on AS13335 (CLOUDFLARENET - Cloudflare, Inc., US).
- TLS certificate issued by WE1 (DV), valid to 2026-10-09.

What to Verify Next

For any arrangement requiring formal authorization, the relevant Brazilian registry or contractual counterparty should independently confirm the applicable entity and permissions. Official contact details should also be cross-checked through an independent institutional source before entering material commercial arrangements.

- The homepage supplies the entity name, telephone number, address, privacy policy, and contact links used for independent comparison.
- The site's stated activities are broadcasting, publishing, programming, and related commercial media services rather than a claimed regulated financial service.

Summary Verdict

The website presents as legitimate, established, and trustworthy, with strong identity consistency and a clean technical and reputational posture. The evidence supports normal use, including account access and standard interactions.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with observed traffic terminating on CDN edge addresses rather than a directly exposed origin. This reduces direct origin exposure and is a mitigating infrastructure signal, although protective hosting alone is not proof of legitimacy.

Closing Assessment

Prospective users and counterparties may proceed with normal site interaction, applying ordinary organizational controls for material transactions or formal business engagements.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about tvgazeta.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
