Key findings

- Automated classification: Not Scam.
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

TVPerú is a public-service television and media portal presenting live broadcasts, national news, sports, cultural and entertainment programming, schedules, institutional information, and public-service resources on behalf of Peru's Instituto Nacional de Radio y Televisión del Perú.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or confirmed malicious reputation findings were observed. The homepage's coherent media structure, named public-service institution, Lima contact details, and absence of sensitive login, payment, investment, cryptocurrency, or wallet functionality align with its stated broadcasting purpose. Normal interaction, including standard site use and account login where applicable, is appropriate.

- The homepage presents live television, program schedules, news, sports, cultural programming, and public-service content.
- The homepage identifies the Instituto Nacional de Radio y Televisión del Perú and provides institutional contact details.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing result.

Regulatory Verification Notes

The site's institutional and terms pages support a public-service media identity rather than a financial or investment business model. No specific licensing number or regulatory authorization is established in the supplied page evidence; this is a limited disclosure point for administrative confirmation, not an indication of deception. The identified owner is the Instituto Nacional de Radio y Televisión del Perú, and no separate broker or financial-entity warning was matched.

- The site provides "Información institucional," "Área comercial," "Nuestros medios," "Contáctenos," and "Términos y condiciones" sections.
- WHOIS identifies the registrar as NIC.PE and the owner as Instituto Nacional de Radio y Televisión del Perú.
- Hosted on AS14618, Amazon-AES / Amazon.com, Inc., US.
- TLS certificate issued by Sectigo RSA Domain Validation Secure Server CA, DV validation, valid to 2027-01-22T23:59:59+00:00.

What to Verify Next

For formal procurement or regulated use, confirm the institution’s current public-service mandate and any applicable broadcasting authorization through authoritative Peruvian public records, and independently confirm official contact channels using published institutional sources.

- The site exposes institutional-information and contact sections suitable for cross-checking.
- The site includes terms and conditions that can be reviewed alongside the institution’s public records.
- The business model is presented as broadcasting, news, cultural programming, and public-service media rather than financial services.

Summary Verdict

TVPerú presents as a legitimate, established, trustworthy public-service media website with a coherent identity and no observed scam or impersonation contradictions. Its content, behavior, reputation, and institutional signals support a high-confidence normal-use posture.

Infrastructure Integrity

The website is protected by AWS CDN/WAF infrastructure, with observed edge addresses on AS14618 and no origin candidate exposed in the analysis. This provides a meaningful layer of exposure mitigation, while remaining a protective control rather than standalone proof of legitimacy.

Closing Assessment

Standard browsing and ordinary account interaction are appropriate; formal institutional engagements should follow the organization’s normal procurement and verification procedures.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- Identity verified on page

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of tvperu.gob.pe.

- The request stayed on tvperu.gob.pe. It was not redirected to another domain. CLEAR
- Registration is published under NIC.PE. CLEAR
- DNS for this domain is served by awsdns-52.com, across 4 name servers. NOTED
- It is hosted on AMAZON-AES, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about tvperu.gob.pe at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
