Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2009.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Televisión Pública Argentina is a public broadcasting and news portal offering live television, schedules, news, entertainment programs, streaming channels, archives, institutional information, and contact details for an established media-service model.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent public-broadcasting function, with programming, news, live content, and institutional navigation rather than deceptive financial or credential-harvesting activity. The site's external reputation is clean, and no brand impersonation, phishing, or malicious finding is indicated.

- Homepage: media/news presentation with no detected phishing indicators, sensitive forms, or deceptive financial features.
- Domain registration: Registered 2013 (~12.62 years old); recorded owner is RADIO Y TELEVISION ARGENTINA S.E.
- Web archive: 5,000 snapshots spanning 2009–2022, covering 14 years with a maximum gap of 1 year.
- External reputation: 0 malicious detections, 0 suspicious detections, and no confirmed malicious finding.

Regulatory Verification Notes

The site exposes institutional sections including "Autoridades," "Comercial," "Compras," and "Prensa," supporting a structured organizational presence. The supplied evidence does not establish a specific broadcasting license or registration number; this is a routine transparency item for formal institutional diligence, not evidence of fraud. The registration record identifies the registrar as nicar.

- Homepage navigation: institutional sections for authorities, commercial activity, procurement, and press relations.
- Registration record: owner listed as RADIO Y TELEVISION ARGENTINA S.E.; registrar listed as nicar.
- Transport security: TLS certificate issued by YE2, DV validation, valid to 2026-10-27.

What to Verify Next

For procurement, partnership, or regulated-counterparty onboarding, independently confirm the organization's current institutional authority and any applicable media-registration requirements through official public records. Contact channels can be confirmed through an independent institutional route.

- Homepage: publishes institutional and press-navigation paths suitable for independent cross-checking.
- Homepage: links to Facebook, Instagram, TikTok, Twitch, X, and YouTube accounts.

- Interaction testing: no password-external forms, wallet activity, or credential-harvesting behavior was detected.

Summary Verdict

The website has a legitimate, established, and trustworthy posture with strong convergence across identity, content, historical continuity, transport security, and external reputation. Normal interaction, including account login where offered and standard use, is appropriate.

Infrastructure Integrity

The site resolves directly to one origin address rather than a CDN edge, with no CDN or WAF detected. This provides less intermediary shielding but does not undermine the otherwise positive assessment; the hosting provider is Techtel LMDS Comunicaciones Interactivas S.A. in Argentina.

- Hosting infrastructure: Served from AS11664 (Techtel LMDS Comunicaciones Interactivas S.A., AR), registry LACNIC, country AR.

Closing Assessment

Normal browsing and standard account activity are appropriate; formal business engagements may complete ordinary institutional due diligence.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	79/100
Identity verification confidence	78%

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of tvpublica.com.ar.

- The request stayed on tvpublica.com.ar. It was not redirected to another domain. CLEAR
- Registration is published under nicar. CLEAR
- DNS for this domain is served by com.ar, across 2 name servers. NOTED
- The registration is paid up to 2027-04-28. NOTED
- The earliest public archive of this site is from 2009-07-12. CLEAR
- It is hosted on AS11664, from a server in AR. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about tvpublica.com.ar at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
