Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is the digital presence of Newcastle's Tyne Theatre & Opera House, presenting its performance programme, visitor information, heritage work and ways for the public to engage with and support the venue.

Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing indicators or adverse threat-reputation findings were observed. The domain is long-established, has a recognized global traffic footprint and presents a coherent theatre identity across its event, venue, heritage and social content. Interactive testing found no hidden forms, credential harvesting, wallet-related activity, clipboard manipulation or cloaking.

- The domain-registration record shows registration in 2014 (~11.68 years old) through GoDaddy.com, LLC, with expiry on 28 November 2026.
- The homepage consistently identifies Tyne Theatre & Opera House and links its programme, venue information, theatre tours, heritage material and established social profiles.
- The homepage contained no login form or sensitive form, while observed browser behaviour showed no hidden forms, suspicious inline scripts, untrusted form destinations or cloaking.
- External reputation checks recorded 0 malicious and 0 suspicious detections, no malicious safe-browsing classification, no reported abuse, and a Tranco rank of 616,312.

Regulatory Verification Notes

The site describes a not-for-profit theatre funded through ticket sales, café and venue activity, merchandise, gift vouchers, memberships, sponsorships and donations supporting preservation of its listed building. This is an arts, entertainment and ecommerce model rather than a financial or investment service, and the available pages make no claim of financial-sector authorization. The navigation provides About, Contact, booking, accessibility and policy-related material, supporting an identifiable operating purpose; however, the supplied page evidence does not establish the precise legal-entity name or charity/company registration particulars behind the venue. That is a minor disclosure-verification point, not evidence of deception.

- The homepage offers event booking, theatre tours, an 1867 Café Bar, a shop, gift vouchers, membership and donation options.
- The homepage navigation includes About Us, Contact, Booking Information, Accessibility, Venue Facilities, History & Heritage and Corporate Partnerships pages.
- The site is served from AS205544 (Leaseweb UK Limited, GB).
- The site's transport encryption uses a YR2-issued DV TLS certificate valid until 29 September 2026.

What to Verify Next

For institutional onboarding, procurement or material sponsorship, the contracting party’s legal name and registration particulars should be matched against the applicable public register and payment documentation. Ticket purchasers should confirm the event, date, seating terms, refund conditions and payment recipient during checkout. Prospective donors or corporate partners should independently confirm the official fundraising or partnership channel before committing substantial funds.

- The homepage advertises dated performances with “Info & Book” and “Book Now” pathways, making event and checkout details relevant to transaction validation.
- The site provides dedicated Booking Information and Contact routes for confirming ticket conditions and the contracting channel.
- The Support Us area distinguishes donations, the Friends’ Club, seat naming and corporate partnerships, indicating several different forms of financial engagement.

Summary Verdict

The website is a legitimate, established and trustworthy theatre presence with a coherent institutional identity, mature public-facing content, clean external reputation and stable observed behaviour. No contradictory or deceptive signals were identified, and normal interaction—including account login where offered, ticket purchasing and standard site use—is appropriate.

Infrastructure Integrity

Cloudflare CDN/WAF protection fronts the website, with the observed address operating as an edge endpoint rather than a confirmed origin server. This arrangement reduces direct origin exposure and provides a useful defensive layer, although protective infrastructure is not independently determinative of legitimacy.

Closing Assessment

Prospective users may engage normally, applying routine transaction checks for event purchases and proportionate due diligence for institutional contracts, major donations or sponsorships.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

About this assessment

A trust score summarises the evidence TrustSniffer could collect about tynetheatreandoperahouse.uk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
