Full analysis

Overview

Ubuy Brasil is an established international e-commerce marketplace presenting imported electronics, fashion, beauty, home, health, food, automotive, and office products, with global shipping, multiple payment methods, promotions, customer support, reviews, and related membership, affiliate, gift-card, and delivery services.

Scam/Impersonation Risk

No contradictions were observed. The homepage and account flows present a coherent retail marketplace rather than a phishing, impersonation, credential-harvesting, or financial-manipulation operation. External reputation checks found no malicious or suspicious detections, no blacklist match, and no abuse reports associated with the observed infrastructure.

- The homepage identifies Ubuy Brasil as an international shopping marketplace with product categories, shipping, payments, refunds, and customer support.
- The homepage contains no detected brand-impersonation, phishing, hidden-form, wallet-drainer, or credential-harvesting indicators.
- The domain was recorded as created on 2016-01-05, with an age of 10.58 years and expiry on 2028-01-05; archival records contain 10 snapshots spanning 2001–2016 across 16 tracked years.

Regulatory Verification Notes

The site's business model is ordinary cross-border retail: it sells and delivers imported consumer goods and promotes payment, refund, support, membership, affiliate, and gift-card services. No financial-services license is claimed in the supplied evidence, so applicable consumer-commerce, import, tax, and payment disclosures should be confirmed for the relevant transaction. This is a transparency matter, not an indication of fraud. The identified legal owner is Toweb Brasil LTDA EPP, and no adverse broker match was found.

- The homepage describes imported-goods sales, global delivery, secure checkout, customer support, and a 100% refund guarantee.
- The site's transport certificate is DV-valid, issued by WE1, and expires on 2026-09-11.
- The site is served from AS13335, operated by CLOUDFLARENET — Cloudflare, Inc., US.

What to Verify Next

Before a material purchase, confirm the applicable import charges, delivery terms, refund conditions, and seller-of-record details shown during checkout. For regulated or high-value transactions, confirm any applicable local

consumer, tax, or payment obligations through the relevant official registry or authority, and validate support channels through an independent route.

- The homepage provides global-shipping, payment, refund, and customer-support information.
- Account pages provide order creation, order tracking, wish-list, and login functions.
- The homepage identifies the Brazilian storefront and links to country and language selections.

Summary Verdict

The site has a legitimate, established, high-trust posture. Its identity, commercial presentation, technical evidence, and external reputation converge without observed contradiction, making normal interaction appropriate.

Infrastructure Integrity

Cloudflare CDN/WAF protection is present, and the observed addresses are CDN edge servers rather than directly exposed origin infrastructure. This reduces direct origin exposure and is a mitigating security factor, but it is not, by itself, proof of legitimacy.

Closing Assessment

Normal account login, ordering, payment, and standard account use are appropriate, subject to ordinary review of transaction-specific terms before completing a purchase.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about ubuy.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
