

Is udisseplus.gov.in legit? TrustSniffer's high-trust assessment: 100/100

udisseplus.gov.in

Verdict

100

OUT OF 100

HIGH TRUST

udisseplus.gov.in appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-17 by automated analysis. Classification confidence 75%.

What this site appears to be

Official UDISE+ portal for the Department of School Education & Literacy, Ministry of Education, Government of India. Provides information about the UDISE+ system, data submission, statistics, notices, and links to resources. Hosted/maintained by NIC.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What uDISEplus.gov.in served when TrustSniffer captured it on 2026-08-17. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2020.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is UDISE+, an official-looking government educational management information portal presenting school, student, and teacher data-submission services, education statistics, notices, tutorials, and related resources for India's school-education system. Its apparent purpose is public-sector data collection, validation, reporting, and information access rather than commercial sales, investment solicitation, or payment processing.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent government-education purpose, identifies the Department of School Education & Literacy and the Ministry of Education, and contains no observed phishing, brand-impersonation, malicious-content, or payment-solicitation indicators. External reputation results were clean, and the site's historical record shows continuity rather than suspicious repurposing. The available evidence is therefore consistent with an established, apparently legitimate public-service portal, although that conclusion does not independently prove the real-world operator's identity.

EVIDENCE

- The homepage identifies UDISE+ as an educational management information system under India's Department of School Education & Literacy and Ministry of Education.
- The archive record contains 355 snapshots spanning 2020-02-08 to 2026-08-13, with 7 years tracked and a maximum gap of 1 year.
- External reputation checks recorded 0 malicious and 0 suspicious detections, with no phishing or blacklist match identified.

Regulatory Verification Notes

The site's stated function is governmental and informational, not a regulated commercial offering. Its identity presentation is internally coherent and includes government-institution references, but the real-world operator has not been independently verified by the supplied evidence. No commercial license or investment authorization is claimed, which is consistent with the stated public-sector purpose; formal institutional confirmation remains appropriate where the portal is used for official data submission or sensitive records.

EVIDENCE

- The domain was registered on 2018-11-05 and is approximately 7.78 years old.
- The site is served from AS4758, NICNET-VSNL-BOARDER-AP – National Informatics Centre, IN.
- Its transport certificate is issued by YE1, uses DV validation, and is valid until 2026-11-09 11:21:36 UTC.

What to Verify Next

Before credential or payment interactions, independently confirm that the portal is referenced by the relevant Ministry of Education or National Informatics Centre channels, and confirm that the intended login or submission workflow is reached through an independently sourced government contact or directory. For institutional data handling, review the portal's official privacy, retention, and support information and confirm the correct organizational authorization for submission.

EVIDENCE

- The homepage provides "Login for All Modules," "About UDISE+," "Publications & Statistics," "FAQ's & Tutorial," and "Contact Us" navigation paths.
- The stated workflow involves school-profile, student, and teacher information being submitted and validated through designated administrative levels.
- The site presents English and Hindi language options, supporting its stated national public-service function.

Summary Verdict

The overall posture is **high trust and low risk**, with the available evidence consistent with an established, apparently legitimate website. The classification supports normal informational use and ordinary portal interaction, while the operator-identity assessment remains qualified rather than independently proven.

Infrastructure Integrity

The site resolves directly to infrastructure associated with the National Informatics Centre, with no CDN or WAF vendor detected and one likely origin IP identified. Direct hosting is an architectural characteristic rather than an indication of maliciousness; the government-associated hosting context provides useful infrastructure consistency, but hosting alone is not proof of legitimacy.

EVIDENCE

- Infrastructure resolution identified 1 unique IP, 0 edge IPs, and 1 likely origin IP.
- No CDN was detected, and no CDN/WAF vendor was reported.

Closing Assessment

Ordinary use is proportionate to the assessment, with independent confirmation of official contact and authorization channels retained as a sensible control before submitting sensitive information or completing any credential- or payment-related action.

Written analysis generated 2026-08-17 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- Identity verified on page

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of udisplus.gov.in.

- The request stayed on udisplus.gov.in. It was not redirected to another domain. CLEAR
- Registration is published under National Informatics Centre. CLEAR
- DNS for this domain is served by nic.in, across 4 name servers. NOTED
- The registration is paid up to 2026-11-05. NOTED
- The earliest public archive of this site is from 2020-02-08. CLEAR
- It is hosted on NICNET-VSNL-BOARDER-AP, from a server in IN. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about udiseplus.gov.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
