

Is udyamregistration.gov.in legit? TrustSniffer's high-trust assessment: 100/100

udyamregistration.gov.in

Verdict

100

OUT OF 100

HIGH TRUST

udyamregistration.gov.in appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-12 by automated analysis. Classification confidence 55%.

What this site appears to be

Official Government of India Udyam (MSME) registration portal. Provides free, paperless registration instructions, eligibility criteria, statistics, contact details, and links for registration/migration. Hosted/managed by National Informatics Centre.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website is the Government of India's Udyam Registration portal, presenting free, paperless registration and related information for Micro, Small and Medium Enterprises, including eligibility guidance, verification services, notices, statistics, and contact or grievance channels.

Scam/Impersonation Risk

No contradictions were observed. The homepage consistently presents a government-service purpose, identifies the Ministry of Micro, Small and Medium Enterprises, warns that no other website, portal, or application is official, and provides registration, certificate-verification, and officer-login functions consistent with that stated purpose. Independent reputation checks found no malicious or suspicious detections, no phishing indication, and no material abuse reporting; this supports an apparently legitimate, low-risk posture, while the real-world operator identity remains independently unverified.

EVIDENCE

- The homepage states that Udyam registration is free, identifies the Government of India and Ministry of MSME, and directs MSMEs to register through the official portal.
- The observed homepage and interaction flows showed no hidden forms, external password submissions, wallet connections, clipboard activity, or suspicious inline scripts.
- The domain was registered on 2020-06-29 and is approximately 6.12 years old, with registration recorded through 2027-06-29.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, 0 abuse reports, and a traffic rank of 20887.

Regulatory Verification Notes

The site's legal and institutional presentation is consistent with a public government registration service rather than a commercial or financial provider. Its pages identify the Ministry of MSME and National Informatics Centre and provide contact, grievance, notice, and verification material. No financial-services license is claimed or required by the stated business model; nevertheless, the available evidence does not independently verify the real-world operator identity, so the on-page institutional claims should be treated as apparent rather than conclusive. A separate broker-oriented reputational dataset produced no match, which is contextual reassurance only and not a licensing determination.

EVIDENCE

- The homepage and service navigation identify the Ministry of MSME and include registration, certificate verification, notices, officer access, and grievance-related functions.
- The site is hosted on AS4758, NICNET-VSNL-BOARDER-AP – National Informatics Centre, IN.
- The site's TLS certificate uses emSign SSL CA - G1, validation level DV, and is valid to 2026-10-18T10:50:00+00:00.

What to Verify Next

Before credential or payment interactions, an organization should confirm the portal's status through an independently obtained Ministry of MSME or National Informatics Centre contact route rather than relying solely on links encountered elsewhere. Any request for registration fees should be treated as inconsistent with the stated service description and independently checked. Where an interaction involves payment, normal payment-protection and transaction-record controls should be applied.

EVIDENCE

- The homepage explicitly describes the registration service as zero-cost and paperless.
- The site provides contact and grievance information that can support an independent channel-confirmation process.
- The portal includes certificate-printing and registration-verification functions that permit direct confirmation of submitted registration details.

Summary Verdict

The overall posture is **high trust and low risk**, and the available evidence is consistent with an established, apparently legitimate government service website. The classification is strong, but it does not independently prove the real-world identity of the operator.

Infrastructure Integrity

The site resolves directly to a single likely origin address and does not use a detected CDN or WAF edge layer. Its hosting assignment is to National Informatics Centre infrastructure in India, and the valid certificate provides transport protection; these are mitigating infrastructure signals, not proof of institutional identity.

Closing Assessment

Normal informational use is proportionate to the evidence; credential or payment activity should proceed only after the ordinary independent identity, channel, and transaction-protection checks described above.

Written analysis generated 2026-08-12 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status

UNVERIFIED

Identity score	55/100
Identity verification confidence	60%

- Identity verified on page

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of udyamregistration.gov.in.

- The request stayed on udyamregistration.gov.in. It was not redirected to another domain. [CLEAR](#)
- Registration is published under National Informatics Centre. [CLEAR](#)
- DNS for this domain is served by nic.in, across 4 name servers. [NOTED](#)
- The registration is paid up to 2027-06-29. [NOTED](#)
- It is hosted on NICNET-VSNL-BOARDER-AP, from a server in IN. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about udyamregistration.gov.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
