

Is uj.edu.pl legit? TrustSniffer's high-trust assessment: 91/100

uj.edu.pl

Verdict

91

OUT OF 100

HIGH TRUST

uj.edu.pl appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-17 by automated analysis. Classification confidence 55%.

What this site appears to be

Official homepage of Uniwersytet Jagielloński (Jagiellonian University) containing news, research highlights, academic announcements and institutional information targeted at students, staff and the public.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What uj.edu.pl served when TrustSniffer captured it on 2026-08-17. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

This website presents itself as the homepage of Jagiellonian University, providing institutional news, research highlights, academic information, student and staff resources, legal and organizational materials, and public communications rather than a direct commercial service.

Scam/Impersonation Risk

No phishing, impersonation, malicious-reputation, or other contradictory signals were observed. The site's academic content, institutional structure, and public-service purpose are consistent with an established university website. Behavioral analysis did detect hidden forms during both observed runs, but there were no password-external submissions, wallet activity, cloaking, or other observed indicators connecting that behavior to credential theft. The real-world operator connection remains independently unverified, so the identity should be treated as apparent rather than proven.

EVIDENCE

- The homepage identifies Jagiellonian University and contains substantial university news, research, education, student-service, and institutional content.
- The domain was registered on 1995-01-01 and is approximately 31.64 years old.
- External reputation checks recorded 0 malicious and 0 suspicious detections; the site has a traffic rank of 16771.
- Behavioral testing recorded hidden forms in 2 of 2 runs, with 0 password-external forms, 0 wallet-connect runs, and 0 wallet-drainer runs.

Regulatory Verification Notes

The site presents a coherent academic and institutional model, with content covering university governance, faculties, academic programs, research, legal acts, strategies, and institutional history. No financial-service licensing disclosure is expected from the informational homepage's stated business model, and no regulatory finding or broker-related match was identified. The available evidence supports an apparently legitimate established site, but it does not independently verify the legal operator behind the domain; any credential or payment interaction should therefore be preceded by ordinary confirmation of the relevant institutional identity and terms.

EVIDENCE

- The site's navigation includes institutional sections for "Władze" (Authorities), "Akty prawne" (Legal Acts), "Historia" (History), faculties, doctoral schools, and administration.
- The domain registrar is dhosting.pl Sp. z o.o.
- Hosting is provided through AS8267, CYFRONET-AS - Academic Computer Centre CYFRONET AGH, PL.
- The transport certificate is OV, issued by GEANT TLS RSA 1 for Uniwersytet Jagielloński, valid to 2027-02-06T18:26:49+00:00.

What to Verify Next

Before entering credentials or providing payment information through any linked service, independently compare the accessed domain and institutional details with a university directory or other independently obtained official reference. Confirm that any login, enrollment, donation, or payment flow remains within an institutionally controlled service and review the applicable terms, refund conditions, and payment protections before completing a transaction. Contact channels should be confirmed through an independently sourced university reference where the interaction is sensitive.

EVIDENCE

- The homepage provides distinct pathways for candidates, students, doctoral students, alumni, and staff, enabling comparison with independently published university information.
- The site includes an English-language navigation option, allowing institutional details to be checked across the available language presentation.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate university website and supports a high-trust, low-risk posture for ordinary informational use. No scam or impersonation contradiction was observed, although independent verification of the real-world operator remains incomplete.

Infrastructure Integrity

The site is directly hosted within academic-computing infrastructure rather than behind a detected CDN or WAF, with resolved addresses assessed as likely origin infrastructure. This is a neutral architectural characteristic rather than evidence of maliciousness, and the confirmed OV TLS configuration provides transport protection.

EVIDENCE

- The site resolves to 149.156.169.67 in Poland.
- Infrastructure analysis identified 5 unique IP addresses, including 5 likely origin IPs and 0 edge IPs.
- No CDN was detected.

Closing Assessment

Ordinary browsing is proportionate to the available evidence; before any sensitive credential or payment interaction, the accessed service and transaction protections should be confirmed through an independent institutional source.

Written analysis generated 2026-08-17 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- Identity verified on page

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of uj.edu.pl.

- The request stayed on uj.edu.pl. It was not redirected to another domain. CLEAR
- Registration is published under dhosting.pl Sp. z o.o.. CLEAR
- DNS for this domain is served by edu.pl, across 4 name servers. NOTED
- The registration is paid up to 2026-12-31. NOTED
- It is hosted on CYFRONET-AS, from a server in PL. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about uj.edu.pl at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
