

Is uno-play.online a scam? TrustSniffer's high-risk assessment: 0/100

uno-play.online

Verdict

0

OUT OF 100

CRITICAL RISK

uno-play.online shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-09-22 by automated analysis. Classification confidence 55%.

What this site appears to be

This is a GoDaddy parked domain page for uno-play.online with a domain-for-sale CTA and related search topic links. No product, signup, or transaction is present.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

of GoDaddy.com.**

What uno-play.online served when TrustSniffer captured it on 2026-09-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: less than 1 year (registration continuity).
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

The website is a GoDaddy parked domain for uno-play.online, presenting a "Get This Domain" resale prompt, advertising-related links, and search topics associated with online Uno games rather than an operating game, financial, or consumer service.

Scam/Impersonation Risk

The site presents no product, registration flow, login form, or transaction mechanism, and its visible content does not itself claim affiliation with a specific operating brand. Nevertheless, the domain is subject to a confirmed blacklist finding and multiple external malicious detections, including detections from Fortinet and Sophos. This is a material contradiction to treating the domain as benign, even though the page-level content is only a parked placeholder and the available abuse reports associated with shared Amazon infrastructure were discounted as non-domain-specific. The site's real-world operator is also unverified. No suspicious contact email or conflicting legal-entity names were observed, but the external threat findings support a clearly cautionary posture for sensitive interaction.

EVIDENCE

- The parked-domain page states that uno-play.online is “parked free” through GoDaddy and offers “Get This Domain”; it contains no product, signup, login, or transaction function.
- External reputation checks recorded 15 malicious and 2 suspicious detections, with Fortinet and Sophos among the flagged vendors; a blacklist finding was also recorded.
- Registration telemetry records creation on 2026-09-08 and an age of 0.04 years; the registrar is GoDaddy.com, LLC.

Regulatory Verification Notes

The page does not operate as a regulated or service-delivery website and provides no corporate identity, licensing authority, registration number, or business terms for an operating service. The available evidence therefore does not independently connect the domain to a real-world operator. The domain-for-sale presentation is consistent with ordinary parking activity, but it does not resolve the external blacklist and malicious-detection findings. No separate broker match was identified in the supplied third-party context; that absence does not constitute licensing or regulatory validation.

EVIDENCE

- The visible page contains only domain-parking language, related search topics, advertising/resale activity, and GoDaddy disclaimer and privacy links; it provides no operator or license disclosure.
- The site's transport certificate is DV, issued by GoDaddy TLS Intermediate CA DV - R1v1, and valid through 2027-04-08.
- The domain resolves through AS16509, operated by Amazon.com, Inc.; the recorded server organization is AMAZON-02 - Amazon.com, Inc., US.

What to Verify Next

Before any sensitive interaction, confirm through an independently sourced channel whether the domain is intentionally associated with a known organization and whether any destination reached through its advertising or resale links is legitimate. Check the relevant domain-registration and threat-monitoring status directly, and ensure that browser, endpoint, and network controls do not permit credential submission, downloads, or payment activity from redirects associated with the domain. Any claimed business relationship should be validated through an established offline or independently published contact route.

EVIDENCE

- The page has no login form, hidden sensitive form, password submission, wallet connection, or transaction workflow.
- Observed browser activity included 14 external XHR requests and 4 external POST requests, with 8 XHR and all 4 POST requests classified as non-whitelisted.
- The page is identified as a domain-for-sale placeholder, with the primary actions being “Get This Domain” and interaction with related advertising or search links.

Summary Verdict

The overall posture is **critical trust with sensitive-interaction risk**. The available evidence does not establish a legitimate operating entity, while the confirmed blacklist and malicious-detection signals materially outweigh the benign appearance of the parked page.

Infrastructure Integrity

The website is protected by CDN/WAF infrastructure, and all observed addresses were CDN edge servers rather than an independently observable origin. This provides some exposure mitigation but also limits direct verification of the underlying hosting environment and should not be treated as evidence of legitimacy.

Closing Assessment

Sensitive actions should be withheld, including credential submission, downloads, payment activity, and interaction with redirects or third-party destinations presented through the page. Any necessary review should remain passive until the domain's ownership, intended use, and external reputation have been independently established.

Written analysis generated 2026-09-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

01 Governance Risk The public registration record for this domain is incomplete. Registration and ownership rule:KF_WHOIS_INCOMPLETE
02 Sensitive Interaction Risk - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor. Analysis engine signal:direct_threat - The page sent data to a destination TrustSniffer does not recognise. Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS - Most of what the page loaded came from other domains rather than from this one. Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH - The page exchanged network traffic with destinations TrustSniffer does not recognise. Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_TRAFFIC - The page made background requests to destinations TrustSniffer does not recognise. Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_XHR - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it. External reputation rule:EXT_BLACKLIST_CRITICAL

Signals weighed against the site

- AbuseIPDB: 12 reports on hosting IP 13.248.213.45 (Amazon Technologies Inc., Content Delivery Network), 0% confidence. The reports are attributed to shared infrastructure, not specifically to this website.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of uno-play.online.

- The request stayed on uno-play.online. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The registration is paid up to 2027-09-08. NOTED
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about uno-play.online at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
