Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2016.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is an official-looking Uttar Pradesh government land-records portal presented primarily in Hindi. It offers visitors access to land-record searches, *khatauni* information, certified-copy requests through online payment, complaint registration, and links to related public services, indicating a government-administered informational and transactional service model.

Scam/Impersonation Risk

No contradictions were observed across the supplied evidence: there were no phishing, impersonation, blacklist, malicious-reputation, or brand-conflict indicators. The homepage content is service-oriented and consistent with a public land-records portal rather than a scheme making investment, financial-return, or commercial solicitation claims. The site appears legitimate and established, although the real-world operator identity is not independently verified by the available evidence.

EVIDENCE

- The homepage identifies the service as “भूलेख” for the Government of Uttar Pradesh and describes access to state land information, land-status searches, complaints, and related government services.
- The domain was registered in 2016 and has remained continuously represented in the available historical record, with no suspicious repurposing detected.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, and 0 abuse reports; no phishing or impersonation finding was present.
- The site's behavioral examination recorded 2 successful runs, 0 external XHR requests, 0 hidden forms, and 0 wallet or credential-draining activity.

Regulatory Verification Notes

The homepage attributes ownership, maintenance, and updates to the Revenue Council of Uttar Pradesh and provides a Lucknow office reference and telephone contact. It also links to privacy, terms, hyperlink, copy, and site-map policies. No commercial license number or separate regulatory registration is presented in the supplied page content; for a government land-record service, this is a disclosure point for confirmation rather than evidence of deception. The available evidence is therefore consistent with an established public-service website, while the operator's real-world identity remains independently unverified.

EVIDENCE

- The domain registration record lists the registrar as National Informatics Centre and the organization as Board of Revenue Government of Uttar Pradesh.
- Registered 2016-04-22; domain age 10.32 years; expiration 2027-04-22.
- Hosted on AS4758, NICNET-VSNL-BOARDER-AP – National Informatics Centre, IN.
- TLS certificate issued by YR1 with DV validation, valid to 2026-09-02T05:37:21+00:00.

What to Verify Next

Before credential or payment interactions, an organization should independently confirm that the domain is listed or linked from an official Uttar Pradesh government source and that the referenced Revenue Council contact details match an independently obtained government record. For paid certified-copy services, the applicable charges, receipt process, refund handling, and payment-protection arrangements should be confirmed through the site's published policies and an independent official channel.

EVIDENCE

- The homepage provides links to terms, privacy, copy, hyperlink, and related-service policies that can be reviewed before transactional use.
- The homepage identifies the Revenue Council of Uttar Pradesh, Lucknow, and provides a telephone contact for independent confirmation.
- The page analysis found no sensitive form, hidden form, untrusted destination, or external password submission.

Summary Verdict

The overall posture is **high trust and low risk**, with the available evidence strongly consistent with an established, apparently legitimate government public-service website. The classification is supported by converging content, historical, infrastructure, behavioral, and external-reputation signals, but it does not independently prove the identity of the real-world operator.

Infrastructure Integrity

The site resolves directly to infrastructure operated by the National Informatics Centre in India, with one resolved origin and no detected CDN or WAF layer. This provides a clear hosting attribution and stable network posture, although hosting characteristics alone are a mitigating technical signal rather than proof of institutional identity.

Closing Assessment

Routine informational use is proportionate to the assessed posture; credentials or payments should follow ordinary independent checks of official service identity, applicable terms, and payment protections.

Written analysis generated 2026-08-17 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- Identity verified on page

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of upbhulekh.gov.in.

- The request stayed on upbhulekh.gov.in. It was not redirected to another domain. CLEAR
- Registration is published under National Informatics Centre. CLEAR
- DNS for this domain is served by nic.in, across 4 name servers. NOTED
- The registration is paid up to 2027-04-22. NOTED
- The earliest public archive of this site is from 2016-05-06. CLEAR
- It is hosted on NICNET-VSNL-BOARDER-AP, from a server in IN. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about upbhulekh.gov.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
