

Is upn.edu.pe safe? TrustSniffer's moderate-trust assessment: 65/100

upn.edu.pe

Verdict

65

OUT OF 100

MODERATE TRUST

upn.edu.pe is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Governance Risk

Assessed 2026-08-12 by automated analysis. Classification confidence 55%.

What this site appears to be

Official university landing/content page for Universidad Privada del Norte (UPN). Contains navigation and detailed listings of undergraduate, postgraduate, distance-learning programs, admissions information, and institutional achievements/accreditations.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Governance Risk.
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website presents itself as Universidad Privada del Norte (UPN), a higher-education institution offering undergraduate, postgraduate, distance-learning, admissions, and continuing education services funded through tuition and program fees.

Scam/Impersonation Risk

No phishing, impersonation, malicious-site, or other contradictory indicators were observed. The homepage's university-focused content is internally consistent with an academic institution, including program catalogues, admissions information, faculties, postgraduate offerings, and institutional achievements. External reputation checks recorded no malicious or suspicious detections, and the domain has an established presence among globally ranked websites. Identity remains apparent rather than independently verified, so the available evidence supports legitimacy without proving the real-world operator beyond the site's own presentation.

EVIDENCE

- The homepage identifies Universidad Privada del Norte (UPN) and provides detailed undergraduate, postgraduate, distance-learning, and admissions content.
- Page inspection found no phishing indicators, hidden forms, wallet activity, cloaking, or brand-impersonation markers.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, and a traffic rank of 63217, within the top 1 million.

Regulatory Verification Notes

The site presents a conventional university business model rather than a financial or high-risk transactional service. Its academic pages reference institutional achievements and accreditations, but the supplied content does not show a specific educational license, registration number, or licensing authority. This is a disclosure and verification gap, not evidence of a scam. A registration record associates the domain with "universidad privada del norte s.a.c." through NIC.PE, while independent identity verification remains incomplete. The site's transport security and hosting configuration provide supporting technical integrity signals, but neither establishes regulatory authorization.

EVIDENCE

- The domain registration record lists NIC.PE as registrar and “universidad privada del norte s.a.c.” as registrant.
- The site's TLS certificate was issued by WE1 using Domain Validation (DV), valid to 2026-10-12T03:24:32+00:00.
- The site is served from AS13335, operated by CLOUDFLARENET - Cloudflare, Inc., US.
- The homepage contains institutional achievement and accreditation references but no supplied license number or named licensing authority.

What to Verify Next

Before tuition payment, sensitive account activity, or submission of personal documents, the institution's legal identity and applicable educational authorization should be confirmed through the relevant official education registry or an independently sourced institutional channel. Admissions and payment instructions should also be cross-checked against contact details obtained through an offline or independently published source rather than relying solely on website-provided navigation.

EVIDENCE

- The admissions pages provide the operational pathway for applying to programs and therefore identify the pages requiring independent confirmation before payment.
- The site's institutional pages contain the accreditation and achievement claims that should be matched against the applicable official education records.

Summary Verdict

The website has a **moderate-trust posture**. Its content, apparent institutional purpose, clean external reputation, and supporting technical signals are consistent with a legitimate university website, while the operator's real-world identity and regulatory standing are not fully independently established.

Infrastructure Integrity

Cloudflare CDN/WAF protection is a mitigating infrastructure control, and the observed network exposure consisted of CDN edge infrastructure rather than a directly exposed origin. This reduces direct origin exposure but should be treated as a security benefit, not as proof of institutional legitimacy.

EVIDENCE

- Observed edge addresses were 104.18.42.210, 172.64.145.46, 2606:4700:4405::ac40:912e, and 2a06:98c1:3107::6812:2ad2.
- All four observed addresses were identified as CDN edge servers; no origin candidate was observed.
- The hosting infrastructure was resolved through the ARIN registry in the United States.

Closing Assessment

Routine informational browsing is proportionate to the available evidence, while high-value payments, sensitive document submission, and other consequential actions should follow independent institutional and authorization

checks first.

Written analysis generated 2026-08-12 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by registration and ownership.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- Identity verified on page

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of upn.edu.pe.

- The request stayed on upn.edu.pe. It was not redirected to another domain. CLEAR
- Registration is published under NIC.PE. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about upn.edu.pe at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
