

Is urosario.edu.co legit? TrustSniffer's high-trust assessment: 100/100

urosario.edu.co

Verdict

100

OUT OF 100

HIGH TRUST

urosario.edu.co appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-12 by automated analysis. Classification confidence 75%.

What this site appears to be

Official university website content for Universidad del Rosario (Colombia). Contains navigation, program listings, news, campus information, contact numbers, and cookie/consent banners. No signs of credential harvesting, payment collection flows, or investment propositions in the provided HTML.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 1997.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website presents Universidad del Rosario, a Colombian higher-education institution offering academic programs, university information, campus services, news, outreach, admissions, and related institutional support; its apparent business model is educational and service-oriented, funded through tuition, program fees, donations, and institutional services.

Scam/Impersonation Risk

No contradictions were observed. The homepage and institutional navigation identify an established university presence, with academic faculties, undergraduate and postgraduate programs, university governance, history, campus information, contact details, and student services rather than credential-harvesting, investment, payment-collection, or deceptive conversion flows. External reputation checks found no malicious or suspicious detections, no phishing indication, and no abuse reports associated with the observed hosting context. The real-world operator identity remains independently unverified, so the apparent institutional identity should not be treated as independently proven.

EVIDENCE

- Homepage: The page title identifies “Universidad del Rosario | Colombia,” and the content contains university faculties, academic programs, governance, history, campus information, and institutional contacts.
- Homepage forms and behavior: No login form, hidden form, sensitive form, wallet connection, or external password form was detected.
- Domain registration: Registered 1998; age 27.96 years.
- Historical continuity: 3,299 archive snapshots spanning 1997–2026, covering 30 tracked years; historical content remained within the education category.

Regulatory Verification Notes

The site presents itself as an educational institution and the supplied pages do not claim a financial, investment, or other third-party regulated service. No specific educational license, registration number, or regulatory authorization was identified in the supplied page content; this is a transparency item for administrative verification, not evidence of impersonation or fraud. The apparent institutional identity is supported by the site's sustained educational content and technical continuity, while independent linkage to the real-world operator remains unverified. The domain is registered through www.registrocolombia.co.

EVIDENCE

- Homepage and institutional pages: Academic offerings, university governance, history, campus services, admissions, financing information, privacy, and cookie-consent content are presented as institutional material.
- Hosting telemetry: Served from AS14618, Amazon-AES – Amazon.com, Inc., US.
- Transport security: TLS certificate issued by GlobalSign RSA OV SSL CA 2018 with OV validation, subject organization COLEGIO MAYOR DE NUESTRA SEÑORA DEL ROSARIO, valid to 2026-11-20.
- Page structure: The homepage contains no sensitive forms, untrusted form destinations, or investment propositions in the captured content.

What to Verify Next

Before credential or payment interactions, an institution's legal identity should be confirmed through an independently sourced university registry or official institutional record, rather than relying solely on the website's own claims. Admissions, tuition, donation, and account-related channels should be reached through independently verified institutional contact details, and applicable fee, cancellation, refund, and payment-protection terms should be reviewed before funds or personal information are submitted.

EVIDENCE

- Institutional pages: The site provides university history, governance, academic faculties, campus information, and contact numbers that can be compared with independently sourced records.
- Admissions and financing content: The site identifies admissions and financing as institutional service areas requiring confirmation of applicable terms.
- Contact and payment workflow: The captured homepage contains no sensitive payment or credential form, so any later transaction should be validated at the point of interaction.

Summary Verdict

The overall posture is **high trust and low risk**, and the available evidence is consistent with an established, apparently legitimate university website. This supports normal informational use, while the independently unverified operator identity warrants ordinary identity and payment checks before sensitive interactions.

Infrastructure Integrity

The website is protected by AWS CDN/WAF infrastructure, and the observed addresses were CDN edge servers rather than identified origin candidates. This reduces direct exposure of the underlying service and is a mitigating security signal, but protective infrastructure alone does not establish institutional legitimacy.

Closing Assessment

Prospective users may proceed with ordinary institutional activities after completing standard independent checks of identity, applicable terms, and payment protections before submitting credentials or funds.

Written analysis generated 2026-08-12 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- Identity verified on page

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of urosario.edu.co.

- The request stayed on urosario.edu.co. It was not redirected to another domain. CLEAR
- Registration is published under www.registrocolombia.co. CLEAR
- DNS for this domain is served by com.co, across 2 name servers. NOTED
- The registration is paid up to 2026-12-31. NOTED
- The earliest public archive of this site is from 1997-04-09. CLEAR
- It is hosted on AMAZON-AES, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about urosario.edu.co at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
