- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2016.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Use Telecom is a Brazilian telecommunications provider offering fiber-optic internet, television, telephony, and business connectivity services in Bahia. Its website presents subscription plans, pricing, coverage verification, customer support, referral incentives, and related service information for residential and business customers.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or confirmed blacklist findings were observed. The homepage presents a coherent telecommunications business model with recurring service plans, local coverage, published pricing, support channels, and legal-entity information; its sole form is a coverage-check form rather than a credential or payment form. Normal interaction, including account login and standard service use, is appropriate.

- The homepage identifies Use Telecom as a fiber-optic provider serving Bahia and presents residential and business connectivity services.
- The homepage provides published plans, prices, coverage areas, support details, and referral information.
- Domain registration dates to 2013-07-25, making it approximately 13.03 years old.
- The site has 124 archive snapshots spanning 2016–2026, with 11 years tracked.

Regulatory Verification Notes

The site presents an established commercial identity and service terms, but the supplied pages do not establish a specific regulatory license or registration number. This is a verification matter concerning disclosure scope, not evidence of deception. No relevant third-party broker match was identified.

- Legal and informational pages identify the Use Telecom business and describe its telecommunications offerings.
- The site publishes service policies, privacy information, support channels, and commercial terms.
- Hosted on AS13335 (Cloudflare).
- TLS certificate issued by WE1 with DV validation, valid to 2026-10-08.

What to Verify Next

For regulated procurement or higher-value commercial engagement, confirm the provider's corporate and telecommunications standing through the relevant Brazilian registries and validate contractual terms through an independently sourced business contact. Routine website interaction and account use may proceed normally.

- The homepage provides the customer-service telephone channel and coverage-verification workflow.
- The site includes dedicated sections for contact, subscriber support, service terms, and privacy.
- The business model is subscription-based, with recurring broadband, television, telephony, and business-connectivity services.

Summary Verdict

The website presents as a legitimate, established telecommunications business with a coherent commercial identity, sustained historical presence, clean external reputation, and no observed contradiction or abuse pattern. Its overall trust posture is high, and ordinary engagement is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare’s CDN and WAF, with observed edge addresses 172.67.69.158, 104.26.8.153, and 104.26.9.153; the origin server was not observable. This infrastructure provides a meaningful exposure-mitigation layer but is treated as supportive rather than conclusive evidence of legitimacy.

Closing Assessment

Prospective customers and business partners may engage through the site’s normal service, support, and account workflows, subject to standard organizational procurement and contractual controls.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of usetelecom.com.br.

- The request stayed on usetelecom.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2034-07-25. CLEAR
- The earliest public archive of this site is from 2016-01-11. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about usetelecom.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
