- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2011.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Video-Shoper.ru is a Russian electronics and home-technology online store presenting branded devices, accessories, appliances, delivery, pickup, warranty, and customer-review services for Moscow customers. Its apparent business model is conventional retail ecommerce supported by catalog sales and local fulfillment.

Scam/Impersonation Risk

No contradictions were observed. The storefront presents a coherent retail identity, a physical pickup location, telephone contact, warranty and delivery information, and a substantial customer-review count. Its catalog and page behavior show no phishing, credential-harvesting, financial-manipulation, or brand-impersonation indicators. External reputation checks recorded zero malicious and zero suspicious detections.

- Domain registration: 2011-02-10; age 15.48 years; expiry 2027-02-10.
- Web archive: 944 snapshots spanning 2011–2026, covering 16 years with a maximum gap of 1 year.
- Homepage content identifies the store at Pyatnitskoye Shosse 18, Pavilion 400, Moscow, and publishes a telephone contact and customer-review section.
- External reputation assessment recorded 0 malicious detections, 0 suspicious detections, and no phishing or impersonation finding.

Regulatory Verification Notes

The site presents ordinary retail disclosures—products, delivery, pickup, warranty, contact details, and reviews—and no conflicting legal identities were observed. No license or registration number is claimed in the supplied site content; for a consumer-electronics retailer, this is a transparency item requiring confirmation rather than evidence of deception. Registration through RU-CENTER-RU and the long, continuously documented operating history support an established identity. A valid domain-validated certificate issued by GlobalSign provides transport authentication, while hosting is attributable to a named provider.

- Registrar: RU-CENTER-RU; registered 2011-02-10 and expiring 2027-02-10.
- Served from AS198610 (BEGET-AS – Beget LLC, RU).
- TLS certificate: GlobalSign GCC R6 AlphaSSL CA 2025, DV validation, valid to 2026-08-11.
- The homepage and service pages describe delivery, pickup, warranty, contact arrangements, and customer reviews; no license number is displayed in the supplied content.

What to Verify Next

For higher-value procurement or institutional engagement, confirm any applicable business registration and consumer-trade obligations through the relevant Russian registry, and independently confirm the published store location and contact channels before settlement.

- The site publishes a physical Moscow pickup address and operating hours.
- The site publishes delivery, warranty, pickup, and review information.
- The supplied content contains no claimed license authority or license number.

Summary Verdict

The website presents as a legitimate, established, and trustworthy ecommerce business with strong historical continuity, coherent commercial content, and no observed contradiction or abuse pattern. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site resolves directly to one identified origin address rather than a CDN edge, hosted by Beget LLC in Russia under AS198610. This is a conventional, attributable hosting posture, although it provides fewer intermediary protective controls than a major CDN/WAF deployment; the valid GlobalSign DV certificate mitigates transport-security risk.

Closing Assessment

Standard browsing, account activity, and retail transactions are appropriate, with ordinary verification of order details and applicable consumer protections for material purchases.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of video-shoper.ru.

- The request stayed on video-shoper.ru. It was not redirected to another domain. CLEAR
- Registration is published under RU-CENTER-RU. CLEAR
- DNS for this domain is served by com., across 4 name servers. NOTED
- The registration is paid up to 2027-02-10. NOTED

- The earliest public archive of this site is from 2011-03-18. CLEAR
- It is hosted on BEGET-AS, from a server in RU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about video-shoper.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
