Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

VoucherCodes is a UK coupon and deals aggregation website presenting retailer voucher codes, VIP offers, savings guides, and promotional incentives. Its apparent business model is affiliate marketing and advertising, with commissions earned when visitors redeem retailer offers.

Scam/Impersonation Risk

No contradictions were observed: the available evidence shows no confirmed phishing, impersonation, conflicting legal identities, or malicious reputation findings. The homepage presents a coherent consumer-promotions function, while behavioral testing found no credential-harvesting forms, hidden sensitive forms, wallet activity, or clipboard manipulation. The domain's long-established registration, broad public traffic footprint, and clean external reputation support the conclusion that this is an apparently legitimate, low-risk website rather than a deceptive site.

EVIDENCE

- The homepage is identified as "VoucherCodes - Exclusive Discount Codes & Vouchers" and contains retailer offers, discount codes, VIP listings, and savings content.
- Behavioral testing recorded no login form, hidden form, password submission to an external destination, wallet connection, wallet-drainer activity, or clipboard hijack.
- The domain was registered on 2003-12-01 and is approximately 22.71 years old.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, no malicious safe-browsing result, and no abuse reports; the domain is in the global top 1 million by traffic.

Regulatory Verification Notes

The site operates as a promotional affiliate platform rather than presenting itself as a deposit-taking or investment service. Its homepage expressly states that commissions may be earned when users buy through VoucherCodes, which is a useful commercial disclosure. The site presents VoucherCodes branding and is described in the available content as RetailMeNot UK, but the real-world operator identity is not independently verified. No licensing claim or license number is supplied in the available site content; for this business model, that is a transparency item for confirmation rather than evidence of misconduct. The site's registration through CSC Corporate Domains, Inc. and its valid transport encryption provide additional infrastructure consistency, but neither independently proves the operator's legal identity.

EVIDENCE

- The homepage states: “When you buy through VoucherCodes, we may earn a commission.”
- The domain registrar is CSC Corporate Domains, Inc.; registration details show creation on 2003-12-01 and expiry on 2026-12-01.
- The site is served on AS13335 by CLOUDFLARENET - Cloudflare, Inc., US.
- The TLS certificate is issued by WE1, uses Domain Validation (DV), and is valid to 2026-09-14.

What to Verify Next

Before credential or payment interactions, an organization should independently confirm the legal operator through the relevant corporate or consumer-services registry and review the site’s terms, privacy, and account-related disclosures. Any purchase should be completed with the underlying retailer after checking that retailer’s return terms, payment protections, and final price. Contact and support channels should be confirmed through an independent official route, particularly where an account or promotional entitlement is involved.

EVIDENCE

- The homepage offers “Sign In” and “Join” functions alongside VIP incentives, making account terms and marketing-consent settings relevant to review.
- The homepage promotes a “Code Guarantee,” so the applicable conditions and exclusions should be checked before relying on a promotion.
- Retailer-specific offers and gift-card incentives are displayed on the homepage; final transaction terms should therefore be confirmed with the named retailer.

Summary Verdict

The overall evidence supports an established, apparently legitimate website with a high-trust, low-risk posture and no observed scam or impersonation contradictions. The site’s identity is evidence-consistent but not independently proven, so the conclusion supports normal browsing and ordinary use while retaining proportionate identity and transaction checks.

Infrastructure Integrity

Cloudflare CDN and WAF protection sit in front of the website, and all observed addresses were CDN edge infrastructure rather than an identified origin server. This reduces direct exposure of the origin and is a mitigating security characteristic, although protective hosting infrastructure is not proof of legitimacy.

EVIDENCE

- The website is protected by Cloudflare CDN/WAF services.
- Four observed IP addresses were classified as Cloudflare edge addresses, with 0 likely origin IPs identified.
- The observed edge addresses were 104.18.41.132, 172.64.146.124, 2606:4700:4408::6812:2984, and 2a06:98c1:310c::ac40:927c.

Closing Assessment

Normal informational use is proportionate to the evidence; before account creation or payment-related activity, ordinary independent checks of operator identity, retailer terms, and payment protections should be completed.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of vouchercodes.co.uk.

- The request stayed on vouchercodes.co.uk. It was not redirected to another domain. CLEAR
- Registration is published under CSC Corporate Domains, Inc. CLEAR
- DNS for this domain is served by com., across 2 name servers. NOTED
- The registration is paid up to 2026-12-01. NOTED
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about vouchercodes.co.uk at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
