

Is vriendenopdefiets.nl legit? TrustSniffer's high-trust assessment: 100/100

vriendenopdefiets.nl

Verdict

100

OUT OF 100

HIGH TRUST

vriendenopdefiets.nl appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-07-31 by automated analysis. Classification confidence 55%.

What this site appears to be

Dutch homepage for Stichting Vrienden op de Fiets, a membership community connecting cyclists and walkers with thousands of private overnight hosts in the Netherlands and other countries. It promotes joining, member login, lodging discovery, travel stories, FAQs, contact information, and legal-policy pages.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website is the Dutch online presence of Stichting Vrienden op de Fiets, a nonprofit membership community connecting cyclists and walkers with more than 5,000 private overnight hosts in the Netherlands, Belgium, Germany, and other countries; it supports membership enrolment, member and host access, lodging discovery, travel information, FAQs, and policy resources.

Scam/Impersonation Risk

No identity contradictions, phishing indicators, brand impersonation, malicious reputation findings, or deceptive browser behaviour were observed. The homepage presents a coherent foundation identity and a plausible, mature hospitality-network model: members undertaking multi-day cycling or walking journeys receive access to participating private hosts. The domain's long registration history, established traffic presence, consistent content, and clean external reputation strongly support the conclusion that this is the legitimate service it represents itself to be.

- The homepage consistently identifies the service as Vrienden op de Fiets and describes a network of more than 5,000 overnight hosts.
- The domain was registered in 2000 and is approximately 25.78 years old; the registrar is Key-Systems GmbH.
- Reputation checks recorded 0 malicious and 0 suspicious detections, with no phishing, impersonation, or external threat-list finding.
- Behavioural observation of the homepage found no cloaking, hidden forms, suspicious scripts, clipboard interference, or credential submission to an external destination.

Regulatory Verification Notes

The visible material presents a nonprofit foundation and membership-based accommodation community rather than a financial, investment, or otherwise regulated service. Its stated identity, purpose, contact resources, FAQs, and legal-policy navigation are internally consistent. No regulatory licence is claimed, and none appears inherently necessary for the described business model; the available page evidence does not, however, provide enough detail to assess corporate-registration particulars or the full contractual terms governing members and hosts. This is a limited disclosure-review point, not an indication of fraud.

- The homepage describes Stichting Vrienden op de Fiets as the operator of a membership network for active travellers and private hosts.
- The homepage provides routes to contact information, frequently asked questions, and legal-policy pages.

- The site is served from AS48635 by CLDIN-NL – Your Hosting B.V. in the Netherlands.
- The site’s transport encryption uses a YE1-issued domain-validated TLS certificate, valid until 2026-09-02.

What to Verify Next

For institutional onboarding or a formal third-party-risk review, the foundation’s registered legal particulars should be matched against the applicable Dutch registry, and the membership terms, privacy policy, fees, host obligations, cancellation arrangements, and dispute process should be reviewed in full. Official contact channels may also be confirmed independently before establishing a contractual relationship.

- The homepage offers distinct participation paths for members and overnight hosts, making the governing terms relevant to both roles.
- Detailed lodging information is reserved for authenticated members and hosts, indicating that account access forms part of the ordinary service model.
- The visible homepage directs visitors to FAQs and policy resources for further service and contractual information.

Summary Verdict

The website has a high-trust posture and is assessed as a legitimate, established, and trustworthy membership service. Its identity, operating model, long-standing presence, clean reputation, and benign observed behaviour converge without contradiction. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site is hosted directly in the Netherlands without a detected CDN or WAF, with two likely origin addresses visible. This is a conventional hosting arrangement rather than a legitimacy indicator; the resolved infrastructure and valid encrypted transport provide appropriate baseline technical integrity.

Closing Assessment

Prospective members and hosts may use the website normally, while organisations entering a formal relationship should complete their standard legal-entity and contractual due diligence.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of vriendenopdefiets.nl.

- The request stayed on vriendenopdefiets.nl. It was not redirected to another domain. CLEAR
- Registration is published under Key-Systems GmbH. CLEAR
- DNS for this domain is served by porkbun.com, across 4 name servers. NOTED
- It is hosted on CLDIN-NL, from a server in NL. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about vriendenopdefiets.nl at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
