- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2020.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Wahana News is an Indonesian news and consumer-information portal covering national, regional, political, economic, health, education, sports, science, and other topics. Its apparent business model is commercially supported publishing through advertising, editorial content, related media properties, and merchandise sales.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or other contradictory signals were observed. The homepage presents a coherent news-publisher identity, broad editorial coverage, publisher navigation, and no login, payment, wallet-connection, or sensitive-data forms. The site therefore presents as a legitimate established publisher rather than an impersonation or abuse-focused operation.

- The homepage identifies Wahana News and provides Indonesian national, regional, political, economic, health, education, sports, and consumer-information content.
- The homepage contains no login form, sensitive form, hidden form, wallet-connection behavior, or cryptocurrency-related feature.
- Domain registration: 2018-06-11; approximately 8.15 years old.
- Web archives contain 122 snapshots spanning 2020–2026, covering 7 tracked years.

Regulatory Verification Notes

The site's legal and editorial navigation includes About, Contact, Advertising Information, Editorial Staff, Careers, Disclaimer, and Media Guidelines pages. These disclosures are consistent with a news publisher and provide a meaningful institutional context; the supplied evidence does not indicate that the site presents itself as a regulated financial service. Any formal supplier review should confirm the contracting publisher entity through the site's stated contact and editorial channels. External reputation signals are clean, while the available page-authority signal is mid-range and explanatory only.

- The homepage links to Contact, Advertising Information, About, Media Guidelines, Editorial Staff, Careers, and Disclaimer pages.
- Hosting is identified as AS13335, Cloudflare, Inc., US.
- TLS certificate: issuer WE1; DV validation; valid through 2026-10-18T07:48:38+00:00.
- The site is included within the top one million websites by observed traffic ranking.

What to Verify Next

For institutional onboarding, confirm the publisher's contracting name and payment details through the independently reached Contact or Editorial Staff pages, and review the site's Disclaimer and Media Guidelines before relying on published material for regulated decisions.

- The Contact page is the relevant channel for confirming publisher and commercial-contact details.
- The Editorial Staff and Media Guidelines pages provide the appropriate context for evaluating content provenance.
- The Disclaimer page should be reviewed before using articles as evidence in formal business or compliance processes.

Summary Verdict

Wahana News presents a legitimate, established, and trustworthy website with a coherent publishing identity, clean reputation, stable operation, and no observed contradiction between its stated purpose and its technical or page-level evidence. Normal interaction, including account login where applicable and standard site use, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare's CDN/WAF, with all observed addresses terminating on CDN edge infrastructure and no origin candidate identified. This reduces direct origin exposure and is a mitigating infrastructure characteristic, although protective hosting alone is not proof of legitimacy.

Closing Assessment

Standard browsing and ordinary engagement are appropriate; formal commercial relationships should follow normal institutional onboarding and record-keeping procedures.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of wahananews.co.

- The request stayed on wahananews.co. It was not redirected to another domain. CLEAR
- Registration is published under Tucows Domains Inc.. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-06-11. NOTED
- The earliest public archive of this site is from 2020-08-10. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about wahananews.co at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
